12 REASONS WHY THE MAYA CALENDAR ENDS ON APRIL 28, 2017:

I. It's called the "May-a" Calendar because it ends in the month of May within the Solar Calendar and begins again in the month of May within the Gregorian Calendar.

II: The Maya Calendar did not end on December 21, 2012—Will end at a future date, namely on Friday, April 28, 2017, the beginning of the Apocalypse.

III. There have been a total of 8 eclipses since April 15, 2014—4 lunar and 4 solar. Cosmic indicators to those paying attention that the beginning of a new age is soon here.

IV. The date of April 28, 2017, is exactly 3-years and 14-days (i.e., 3.14 or π) since the first lunar eclipse on April 15, 2014, the first Blood Moon in millennia.

V. The Mayans intimately linked Planetary Alignment with the End of the Maya Calendar which is inherently astrological in nature.

VI. Planetary Alignment occurred from January 20, 2016, until February 20, 2016, evidently a once in a 5,125-year event.

VII. NASA has repeatedly denied and lied about the existence of Planetary Alignment in 2016. But why? What exactly are they trying to hide?

V.III Cicero and Plato referred to 2016 as the "Great/Perfect Year" when the planets finally align which is exactly what happened from January 20, 2016, until February 20, 2016.

IX. 5-Planetary Retrograde occurred on April 28, 2016, evidently a once in a 5,125-year event. It transpired exactly one date prior to the end of the Mayan Calendar on April 28, 2017. Planetary Retrograde is when the planets start to circle downward and backwards.

X. The Blood Moon Prophecy in respect to the End of Days was fulfilled on September 27, 2015.

XI. The opening of the 7th Seal (i.e., the 7th eclipse) as depicted in Revelations of the Holy Bible transpired on September 1, 2016. According to Revelations 8:1, humanity has "half an hour" left before the End of Days.

XII. The elite of the Greco-Roman Empire who currently rule Earth have evacuated for the safety of the ISS (International Space Station) which likely left for outer space back on May 21, 2016.

GERMANY, Undisclosed Location — Based on breaking news and cosmic events, it appears that the [Maya Calendar](#) will end on Friday, April 28, 2017, roughly one year after [Planet Alignment](#) as foretold by the Mayans of Central and South America. This is the [Apocalypse](#), [Judgment Day](#) and the [End Time](#) which have been prophesized for centuries. But have no fear, the [Messianic Age](#) is soon here.

In short, the [Three Days of Darkness](#) prophecy will evidently commence on April 28, 2017, after which the Earth will suffer 25-days of recreation, likely at the hands of [Ceres](#) (i.e., the [Rings of Saturn](#)). The 28-day Apocalypse will result in the collapse of the Babylonian System, triggering [Harmonic Convergence](#) and the birth of the [Fifth World](#).

According to Dr. John B. Carlson, Director of the University of Maryland Center for Archaeoastronomy, "The [Maya Calendar did not end on December 21, 2012](#), and there were no Mayan prophecies foretelling the end of the world on that date". In other words, the [Maya Calendar](#) is ongoing and will end at a future date.

This notion is corroborated by the fact that the [Maya Calendar](#) prophesized the end of the [Fourth World](#) and the beginning of the Fifth World which obviously did not transpire on December 21, 2012, which was erroneously regarded as the end-date of a 5,125-year-long cycle in the [Mesoamerican Long Count calendar](#).

Since no transformative cosmic events transpired on or around December 21, 2012, it can be deduced that they will occur at a future date as foretold by the Mayans. Since the [Maya Calendar](#) is inherently astrological in nature, it stands to reason that its end will culminate with a series of astrological events, namely the arrival of what psychedelic philosopher Terence McKenna called the "Transcendental Object At The End Of Time".

That is to say that although the [Maya Calendar](#) purportedly ended on December 21, 2012, there were no series of remarkable Blood Moons (lunar eclipses), no planetary alignment, no planetary retrograde and no series of solar eclipses preceding it. Despite the Hollywood hype surrounding Doomsday on December 21, 2012 there was no cosmic climax.

However, that was not the case with the year of 2016 and early 2017. The 4 Solar eclipses, 4 lunar eclipses (i.e., Blood Moons), the planetary [alignment of Jupiter, Mars, Mercury, Saturn and Venus](#) from January 20, 2016, until February 20, 2016, as well as the [retrograde status of 5 planets](#) on April 28, 2016, suggests that the end of the [Maya Calendar](#) will transpire roughly one year after the end of Planetary Alignment on April 28, 2017.

That is why 2016 is known as the [Great Year](#) in astronomy which Greek philosopher [Plato](#) (c. 427–347 BC) referred to as the "perfect year" in which the celestial bodies ([planets](#)) and the [diurnal](#) rotation of the fixed [stars](#) (circle of the Same) return to their [original](#) positions (i.e., the [31-day Planetary Alignment of 2016](#)).

The Roman philosopher [Cicero](#) (106–43 BC) wrote in [De Natura Deorum](#) (45 BC) that the [Great Year](#) will be completed "...when the Sun, Moon and five planets having all finished their courses have returned to the same positions relative to one another" which is evidently what transpired from January 20, 2016 until February 20, 2016.

Despite the historic Planetary Alignment of 2016, Donald Yeomans of NASA's Near Earth Object Program stated in 2009 that "...There [won't be any planetary alignments for a couple of decades](#) on either side of 2012". Considering that NASA has calculated every solar and lunar eclipse down to the second [until the year 3,000 AD](#), their blatant denial of the 31-day long Planetary Alignment of 2016 can only be construed as a premeditated deception.

The NASA cover-up of Planetary Alignment in 2016 was further perpetuated by a report from December 22, 2012, entitled "[Beyond 2012: Why the World Didn't End](#)" which stated that "[There are no planetary alignments in the next few decades](#)". Again, NASA went out of their way to sell the public on the notion that Planetary Alignment will not transpire anywhere near 2012.

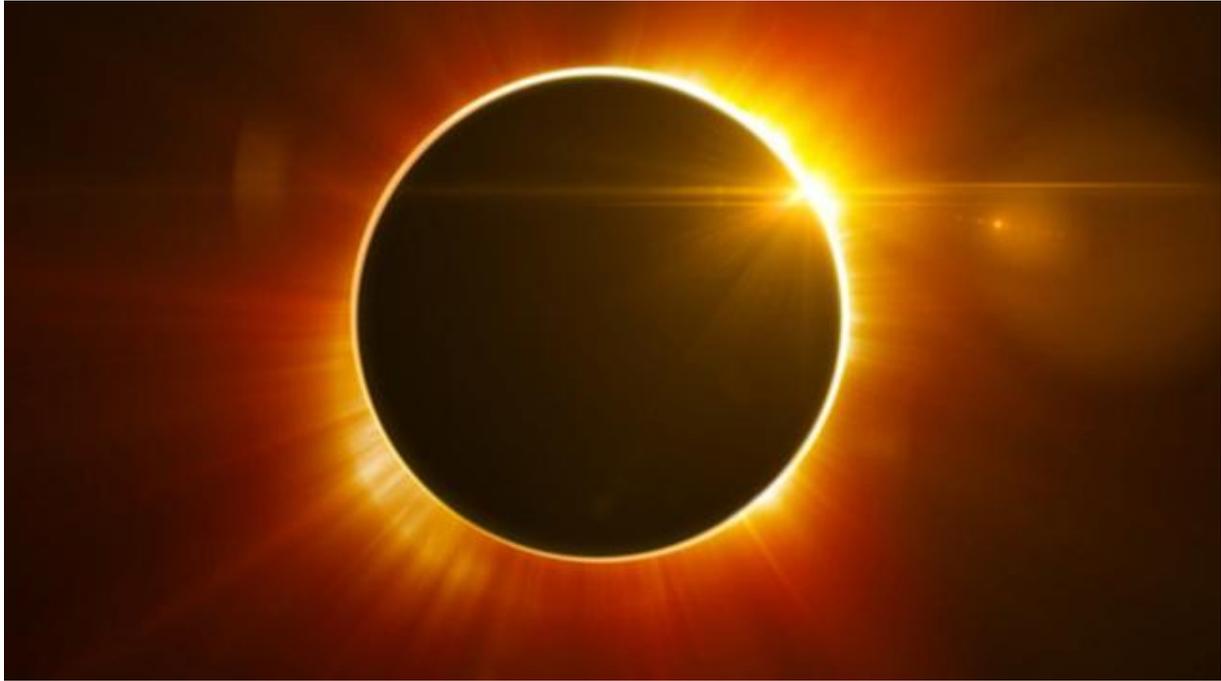

To date, NASA has not published one single report either confirming or denying Planetary Alignment in 2016. For lack of a better analogy, it's like Jesus returning to Earth and the Pope saying nothing. NASA did however published a propaganda report on June 3, 2013, entitled "[Rare Stellar Alignment Offers Opportunity To Hunt For Planets](#)" which highlighted the planetary alignment of Proxima Centauri in 2014 and 2016.

The notion that the Maya Calendar ends on April 28, 2017, is corroborated by the fact that: a) there have been 8 eclipses since April 15, 2014; b) the so-called [Blood Moon Prophecy](#) was fulfilled on September 27, 2015; c) the [opening of the 7th Seal in the Bible](#) (i.e., the 7th eclipse) transpired on September 1, 2016; and d) the elite of the Greco-Roman Empire have evidently evacuated Earth for the safety of the ISS (International Space Station)

Although [Matthew 24:26](#) in the Holy Bible states in respect to the [End of Days](#) that the "day and hour knoweth no man, no, not the angels of heaven, but my Father only", the [Maya Calendar](#) will evidently end on April 28, 2017, when Earth begins the birthing process of entering the [Fifth World](#) as foretold by the Mayans.

13. **May 26, 2017:** Apocalypse Ends with First Sunrise in 28-Days
14. **May 26, 2017:** Fifth World of Peace & Love Begins

Exactly what will transpire when the [Maya Calendar](#) ends on April 28, 2017, is not known, but the [eschatological](#) prophecies found in the Bible and Mayan lore suggest that the [Three Days of Darkness](#) prophecy will commence, likely resulting in a 72-hour solar eclipse that will shock the Earth to her very core.

Shortly thereafter on May 1, 2017, the arrival of unknown planetary bodies are expected, namely the so-called dwarf planet of [Ceres](#) (i.e., the [Rings of Saturn](#)) which will evidently envelope Earth in 5 Rings of Fire over the next 25-days.

The notion that a rouge planet is now heading towards Earth was foreshadowed back on January 25, 2016, when it was reported that [Planet 9 was discovered](#) in our Solar System. Considering that NASA's live feed went down on November 18, 2016, astronauts at NASA are likely viewing a pre-recorded video, unable to see the approaching [Ceres](#) (i.e., the [Rings of Saturn](#)).

This notion was confirmed, albeit in a de facto manner by NASA who stated in their official response to the live feed being shut down that "[The High Definition Earth Viewing experiment is either switching cameras](#), or we are experiencing a temporary loss of signal with the International Space Station". In other words, they switched the live cameras with prerecorded ones.

After [Three Days of Darkness](#) commences on April 28, 2017, the world will evidently undergo 25-days period of rebirth starting with the arrival of [Ceres](#) (i.e., the [Rings of Saturn](#)) on May 1, 2017. The number "25", which symbolically equates to "SS" as in [ISIS \(i.e., Jesus\), is worshiped above all other gods](#) for these 25-days is when the Greco-Roman Empire will be vulnerable to extinction.

The [7th Seal Eclipse on September 1, 2016](#), was [dubbed a "Ring of Fire Eclipse"](#) (see below) as well as the [solar eclipse on February 26, 2017](#), which was also dubbed a ["Ring of Fire Eclipse"](#), further foreshadowing that the Earth is about to be arrival of [Ceres](#) (i.e., the [Rings of Saturn](#)) is imminent.

The notion that cosmic events will trigger a collapse on Planet Earth was foreshadowed back on April 23, 2016, when it was [erroneously reported that the Earth's magnetic field collapsed](#). Although the [claim was later debunked](#), the notion of a cosmic-induced collapse was made nonetheless.

Once the [Three Days of Darkness](#) prophecy has commenced, the [European Space Agency](#) and [NASA](#) will predictably claim that the prolonged solar eclipse is a result of a foreign entity or planetary body within our Solar System (e.g., Aliens, [Nibiru](#), Planet 9, [Planet X](#), etc.), not the dwarf planet [Ceres](#) (i.e., the [Rings of Saturn](#)).

As foreshadowed in the 2009 Hollywood propaganda film entitled "[2012](#)", the end of the [Maya Calendar](#) and the subsequent arrival of a planetary body will trigger the long-awaited "cleansing" of Earth, including but not limited to: earthquakes, hail storms, lightning storms, mass flooding, thunder storms and volcanic eruptions.

Regardless, it is imperative to note that the good people of Earth vibrating on a frequency of peace and love have nothing to worry about when the [Maya Calendar](#) finally ends. As the great Mahatma Gandhi once said, "There is nothing that wastes the body like worry, and one who has any faith in God should be ashamed to worry about anything whatsoever".

The long-awaited end of the [Maya Calendar](#) will evidently trigger [Harmonic Convergence](#), a "[great shift in the Earth's energy from warlike to peaceful](#)", ushering in a period of "cleansing" whereby many of the Earth's "false structures of separation" (e.g., banking, government, religion, etc.) will simultaneously collapse, forever.

[Harmonic Convergence](#) will also bring about the so-called "End of History" (i.e., the end of the Greco-Roman's Babylon System) and the beginning of a new 5,125-year cycle (i.e., the [Messianic Age](#)). Evils of the modern world (e.g., capitalism, fascism, materialism, slavery, terrorism, torture, war, etc.) will finally cease with the birth of the [Fifth World](#).

I. DECIPHERING MAYAN CALANDAR CODEX & SYMBOLOGY:

1.1: Name & Symbology of Maya Calendar

The term "May-a" (M+Y) and "May" (M+A) are consonantly speaking the same term for the [Maya Calendar](#) begins and ends in the month of May. This is evidently where the name of the Maya Calendar was originally derived from for the cosmic-based calendar begins on May 16, 2017, within the Solar Calendar and ends on May 26, 2017 within the Gregorian Calendar. The [Chevron symbol](#) (i.e., the "^" symbol or the letter "A" minus the cross-bar) found atop the classical depiction of the Maya Calendar equates to the letter "C" and "K" in the [Roman Score](#) (i.e., the original alphabetic and numeric system of the Greco-Roman Empire) and the letter "C" in the English alphabet. The twisted "X" symbol featured in the Maya Calendar equates to the letter "N" in the Roman Score where it is found in the 14th position. When combined, these two symbols in the Mayan Calendar gramatically spell "C/K-N" or "CN" which numerically-speak equate to 3/14 or 3.14 as in ["Pi", "P", or "π"](#). As evidenced below, the Mayan calendar will end exactly 3-years and 14-days after the first Blood Moon on April 15, 2014, which initiated the countdown to the Apocalypse. The Asterix symbol (i.e., "***") or Chi symbol (i.e., "Ж") turned 90° is also found within the depiction of the Maya Calender. The Chi symbol is found in the 5th position within the Roman Score, an apprent tribute to the 5 Rings of Saturn which the Earth is evidently slated to pass though (see below). May is also the 5th month of the year which is also indicative of the Chi symbol (i.e., "Ж") in the Roman Score which is defined as "life force" for the life of the Greco-Roman Empire is litterally on the line during the Apocalypse. Because the "X" symbol was the letter "N" in the Roman Score, the term "Asterix" (S+T+R+X/N) is consonantly speakingthe same as Saturn (S+T+R+N). The Chi-like Asterix symbol is an apparent tribute to the 5 Rings of Saturn (see below) which the Earth is evidently slated to pass through. The twisted "X" found within the Maya Calendar doubles as a "+" symbol which when superimposed with the "O" symbol at the center of the Maya Calendar forms the [Earth symbol](#) (i.e., " ð "). The Earth symbols "+/O" numerically equate to "4/15" as in April 15th (i.e., Day Zero), the official countdown date of the Apocalypse which commenced with a [Lunar Eclipse on April 15, 2014](#), the first Blood Moon in **millennia**. Lastly, the Pi symbol (i.e., "π") which fortells the exactly date of the Apocalypse is also found within the Mayan Calander.

SYMBOLS OF THE MAYA CALENDER:

1. ^ — Equates to number "3" in the Roman Score and letters "C" and "K" in the English alphabet
2. X — Equates to number "14" in the Roman Score and letter "N" in the English alphabet
3. π — Equates to number "8" and letter "P" in the Roman Score and 3.14 equation in Mathematics

4. Ж — Equates to number "5" and "CH" symbol in the Roman Score and letter "H" (i.e., the 8th letter) in the English alphabet
5. + — Equates to number "4" and letter "D" in the Roman Score
6. O — Equates to number "0" in the Roman Score and letter "O" in the English alphabet

1.2: The 28-Day Apocalypse

The term [Apocalypse](#) refers to eschatology, prophetic revelations, the so-called [end time](#), and the [end of the world](#) in general. Aside from the letter "P", the term "[Apocalypse](#)" (P+C/K+L+P+S) is consonantly speaking the same as "[Eclipse](#)" (C/K+L+P+S) and "[Collapse](#)" (C/K+L+P+S). That is because the impending Apocalypse will evidently commence with a 3-day Solar eclipse that will plunge the World into total darkness, chaos and anarchy. Said eclipse will give way to the arrival of [Ceres](#) (i.e., the [Rings of Saturn](#)) on May 1, 2017, whose [Syzygy](#) (i.e., when planetary bodies are "yoked together") will evidently trigger 25-days of cosmic creation which will finally bring about the long-awaited collapse of the [Babylonian System](#). The letter "P" in the English alphabet is representative of [Pi](#) (i.e., the number "π"), the [ratio](#) of a [circle's circumference](#) to its [diameter](#) which is commonly approximated as 3.14159 although the number goes on to infinity. That is because the arrival of [Ceres](#) (i.e., the [Rings of Saturn](#)) evidently happens every 5,125-years, to infinity. That is why 2016 is known as the [Great Year](#) in astronomy which the Greek philosopher [Plato](#) (c. 427–347 BC) referred to as the "perfect year" in which the celestial bodies ([planets](#)) and the [diurnal](#) rotation of the fixed [stars](#) (circle of the Same) return to their original positions. The circle reference by Plato is evidently representative of [Pi](#) (i.e., the number "π") which started on April 15, 2014 (i.e., Day Zero) and concludes 3-years and 14-days later on April 28, 2017. Although it has been represented by the Greek letter "π" since the mid-18th century, Pi or the "P" symbol is in the 8th position of [Roman Score](#) because the [number "8"](#) was derived from the solar and lunar [Analemma](#) which goes on to infinity (i.e., it never stops). The letter 'π' it is an [irrational number](#) that cannot be expressed exactly as a [fraction](#) in that equivalently, its [decimal representation](#) never ends and never [settles into a permanent repeating pattern](#). The term [Apocalypse](#) (i.e., π-Collapse) was evidently derived from the fact that the duration of the Apocalypse is from 5/16 to 6/16 (May P to June P) in the Solar Calendar which consists of thirteen 28-day months starting on December 21, the [Winter Solstice](#) which was erroneously regarded as the end date of the Maya Calendar in 2012. A day is added each year on March 31 which is celebrated as the anniversary of the [Temple of Luna](#) (i.e., Temple of the Moon) because the calendar is based on 13 complete moon cycles. Therefore, in order to survive the Apocalypse, the Greco-Roman Empire must eclipse "π" or pass from "P" in May to "P" in June of 2017. In other words, during the Apocalypse from May 16 to June 16 in the Solar Calendar, the Earth will undergo a 28-day rebirth process which may be hazardous to one's health, especially those living out of harmony with the Creator and nature. The notion that the Apocalypse and the so-called rebirth of the Earth will take 28-days is corroborated by the notion that the [moon cycle is roughly 28-days in length](#) while a [woman's menstrual cycle](#) (i.e., period) is exactly 28-day in length. This is no accident for one has to do with planetary cycles while the other with the creation of life. This is likely where the title of the film "[28 Days Later](#)" (2002) was evidently derived from for the World as we know it will be completely changed during a 28-day period.

Lastly, the date of April 28, 2017, will mark 61-days since the eighth and final [solar eclipse on February 26, 2017](#). The number "61" is the opposite of the number "16" which equates to the letter "P" (i.e., Pi or π). Therefore, the Apocalypse term is also valid in respect to the final eclipse prior to the end of the Maya Calendar as well as the Apocalypse itself.

1.3: Date of April 28, 2017

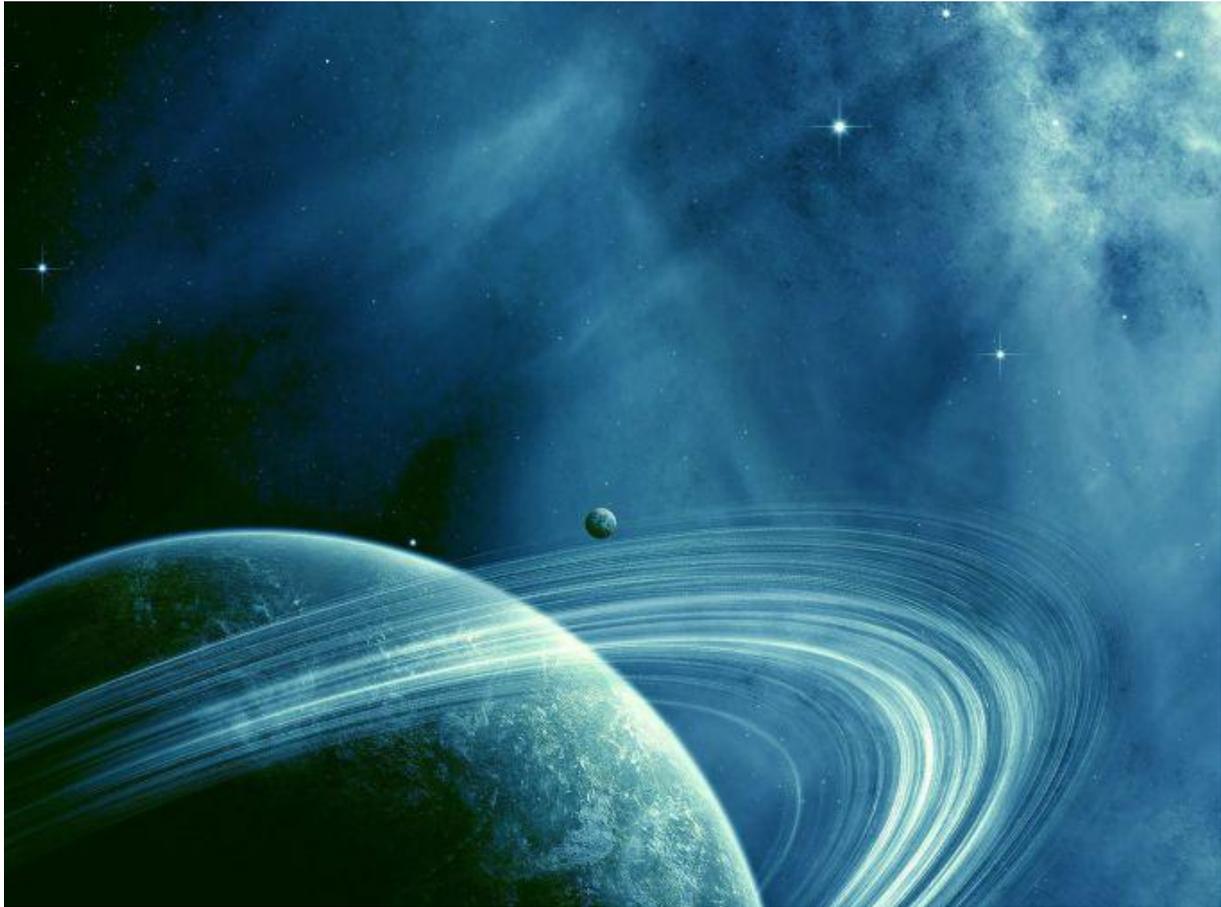

The notion that the Apocalypse will commence on April 28, 2017, was foreshadowed by the [retrograde status of 5 planets](#) back on April 28, 2016. Since all of the [planets](#) orbit the [Sun](#), retrograde occurs when said planets begin to move in the opposite direction of the Sun, a clear sign that transformative cosmic events are imminent. Although only conjecture, planetary retrograde will likely take place once again on or around April 28, 2017, in order to make way for the arrival of [Ceres](#) (i.e., the [Rings of Saturn](#)). The number "4" found in the date of 4/28 equates to the cross symbol (i.e., "+") which is representative of the 4th month of April as well as the 4-weeks of the Apocalypse. The number 4 (i.e., "+") of April 28th found within the Mayan Calendar equates to the letter "D" in the English alphabet which is an acronym for both "Die" and "Death". That is why the cross symbol (i.e., "+") is found in cemeteries, churches, hospitals as well as on the flag of Switzerland (home of the CIA) for they are all intimately affiliated with physical or spiritual death. When employing the Roman Score, the date of 4/28 symbolically equates to "+/V π " which when acronymically translated equates to "Cross Victorious Pi", symbolizing that the Greco-Roman Empire will be victorious over the planetary crossing of " π " (i.e., from 5/16 to 6/16 in the Solar Calendar). The [number "8"](#) which formerly represented the never-ending " π " symbol in the Roman Score was derived from the solar and lunar [Analemma](#) which also goes onto infinity. In the Roman Score, the 16th position is represented by the ["# symbol](#) (i.e., hash, number sign, pound sign, ect.) which was popularized as of late via the term ["Hash Tag"](#) or "Hush Tag" in social media. Considering that in German language the term ["Tag" translated to "Day"](#), the term "Hash Tag" when translated equates to "Hush Day" for the World will be hushed or silenced when the Sun disappears on April 28, 2017. The number "28" also equates to "BH" in the English alphabet and "BCH" in the Roman Score. This is likely where the curse words ["Son of a Bitch"](#) was derived from for the "Sun" will disappear on the 28th. The term ["Bitch"](#) is defined as a female dog in heat for the World is slated to bleed on April 28th, namely due to anarchy, mass riots, murders and suicides. The date of the Apocalypse on April 28, 2017, falls on "Friday" (F+R+D), a term which is consonantly-speaking the same as "Four Day" (i.e., "Cross Day") as the number "4" was formerly a "+" symbol. The term ["Black Friday"](#) has been popularized in pop culture in the last century, namely due to the crucifixion of Jesus Christ and stock market crashes which will likely transpire when the world goes dark on Black Friday, April 28, 2017. The cross symbol (i.e., "+") also represents the 4th month of April as well as the 4-weeks (i.e., 28-days) of the Apocalypse. The term "weekend" was likely derived from "wick's end" as in the end of a [candle wick](#). That is to say that time is running out and it's about to go dark when the Sun disappears. In order to pay homage to the last weekend (i.e., the wick's end) of the World as we know it, the artist known as [The Weekend](#) inexplicably became an overnight global success, namely due to his song [Starboy](#), an apparent reference to the impending arrival of the black star known as

1.5: The Transcendental Object at the End of Time

The great [Terence McKenna](#) saw the [universe](#) as having a [teleological attractor](#) at the [end of time](#) which increases [interconnectedness](#) and would eventually reach a [singularity](#) of infinite complexity (i.e., "the [transcendental](#) object at the end of time"). In [religion](#), transcendence refers to the aspect of a God's nature and power which is wholly independent of the material universe, beyond all physical laws. In other words, whatever is going to happen on Earth will be out of this world, literally and figuratively speaking. When describing this model of the universe McKenna stated that: "The universe is not being pushed from behind. The universe is being pulled from the future toward a goal that is as inevitable as a [marble](#) reaching the bottom of a bowl when you release it up near the rim. If you do that, you know the marble will roll down the side of the bowl, down, down, down – until eventually it comes to rest at the lowest energy state, which is the bottom of the bowl. That's precisely my model of human history. I'm suggesting that the universe is pulled toward a complex attractor that exists ahead of us in time, and that our ever-accelerating speed through the phenomenal world of connectivity and novelty is based on the fact that we are now very, very close to the attractor". Although McKenna frequently referred to this theory as "the [transcendental](#) object at the end of time", he evidently was unaware that the object he spoke of was an actual object in space, namely [Ceres](#) (i.e., the [Rings of Saturn](#)) which appears at the end of the Mayan Calendar on April 28, 2017. Nevertheless, McKenna was on point and would have no doubt figured out all that pertains to the Apocalypse which is why he was evidently assassinated on April 23, 2000. According to McKenna's final interpretation of the data and positioning of December 21, 2012 (i.e., the official hoax date of the alleged end of the Mayan Calendar) in '[Approaching Timewave Zero](#)' graph, the Earth would be in the unique position in time where maximum novelty would be experienced which he described as a "conrescence", a "tightening 'gyre'" with everything flowing together. McKenna speculated that "...when the [laws of physics](#) are obviated, the universe disappears, and what is left is the tightly bound plenum, the [monad](#), able to express itself for itself, rather than only able to cast a shadow into [physis](#) as its reflection...It will be the entry of our species into '[hyperspace](#)', but it will appear to be the end of physical laws, accompanied by the release of the mind into the imagination".

II. CERES, SATURN & THE RINGS OF SATURN:

2.1: The Rings of Saturn

Exactly what will transpire when [Ceres](#) (i.e., the [Rings of Saturn](#)) arrive is not known, but the Rings of Saturn will likely encompass Earth with 5 Great Rings of Fire, likely blue, green, red, yellow and white in color. Needless to say, the CIA-run media will attempt to sell this naturally occurring phenomenon in the media as an alien invasion (see below). Although only conjecture, it appears that the alleged planet Ceres is code-word for the Rings of Saturn for the Earth is slated to pass through a "Ceres" or "Series" of Saturn's Rings. The Rings of Saturn (i.e., [Black Holes](#)) which will likely have a transformative creation-like effect on Earth due to [Syzygy](#) (i.e., when planetary bodies are "yoked together"). Black holes exhibit such strong [gravitational](#) effects that nothing—not even [particles](#) and [electromagnetic radiation](#) such as light—can escape from inside it. Coincidentally, Saturn is known as both the black planet and [black star](#), a theoretical alternative to the [black hole](#) concept from [general relativity](#). The [5 Olympic Rings](#) which are admittedly Greco-Roman in origin are an apparent tribute to the 5-rings of Saturn which the Earth is slated to pass through during the Apocalypse. The black and final 5th Olympic ring is likely representative of Saturn which poses the greatest threat to Greco-Roman Empire who must defeat the planetary body in order to survive the Apocalypse. That is likely why the symbol for the alleged planet [Ceres](#) contains a [cross and question mark](#) for even the Greco-Roman Empire has no idea what will happen when Earth enters the 5 Rings of Saturn. The notion that the Earth will be targeted by the 5 Rings of Saturn over a 4 week period is found within the symbol of [Saturn](#) which contains both a [cross symbol \(i.e., "+"\)](#) and the letter "h". The "+" symbol equates to the number "4" while the letter "H", which is pronounced "aich" or "aitch", is located in the 5th position and is known as the "Chi" symbol in the Roman Score. Aside from the last letter which was likely added at a later date, the term "Saturn" (S+T+R+N/X) is consonantly the same as "Star" (S+T+R) which is most often depicted with 5 points, likely a veiled tribute to the impending 5 Rings of Saturn.

2.2: Rings of Fire

In what appears to be a tribute to the Rings of Saturn, the volcanic chain encircling the Pacific Ocean has been entitled the [Great Ring of Fire](#). The late great Johnny Cash's song entitled "[Ring of Fire](#)" (1963) is another apparent tribute to this impending phenomenon which states, "I fell into a burning ring of fire...I went down, down, down and the flames went higher...And it burns, burns, burns...The ring of fire, the ring of fire". The notion that a Ring of Fire is imminent was foreshadowed by the logo of [Black Sabbath's "The End Tour"](#) which coincidentally started on January 20, 2016, the same date that Planetary Alignment commenced. The total [solar eclipse on September 1, 2016](#), was interestingly dubbed the so-called "[Ring of Fire Eclipse](#)". Roughly 3-weeks later on September 23, 2016, USA Today published a report entitled "[Gary Johnson: Forget About Climate Change, Sun Will Someday Encompass Earth](#)" which was evidently designed to foreshadow the notion that the Earth will travel through the Sun one day, albeit the Black Sun (i.e., [Ceres](#)). In what appears to be more pre-Great Ring of Fire Programming, the BBC published a report on September 26, 2016, entitled "[Europa Moon 'Spewing Water Jets'](#)". Needless to say, when [Ceres](#) (i.e., the [Rings of Saturn](#)) finally arrive above Earth, she will likely be spewing fire. Lastly, the latest [solar eclipse on February 26, 2017](#), was also dubbed a "[Ring of Fire Eclipse](#)", further foreshadowing that the arrival of [Ceres](#) (i.e., the [Rings of Saturn](#)) is imminent.

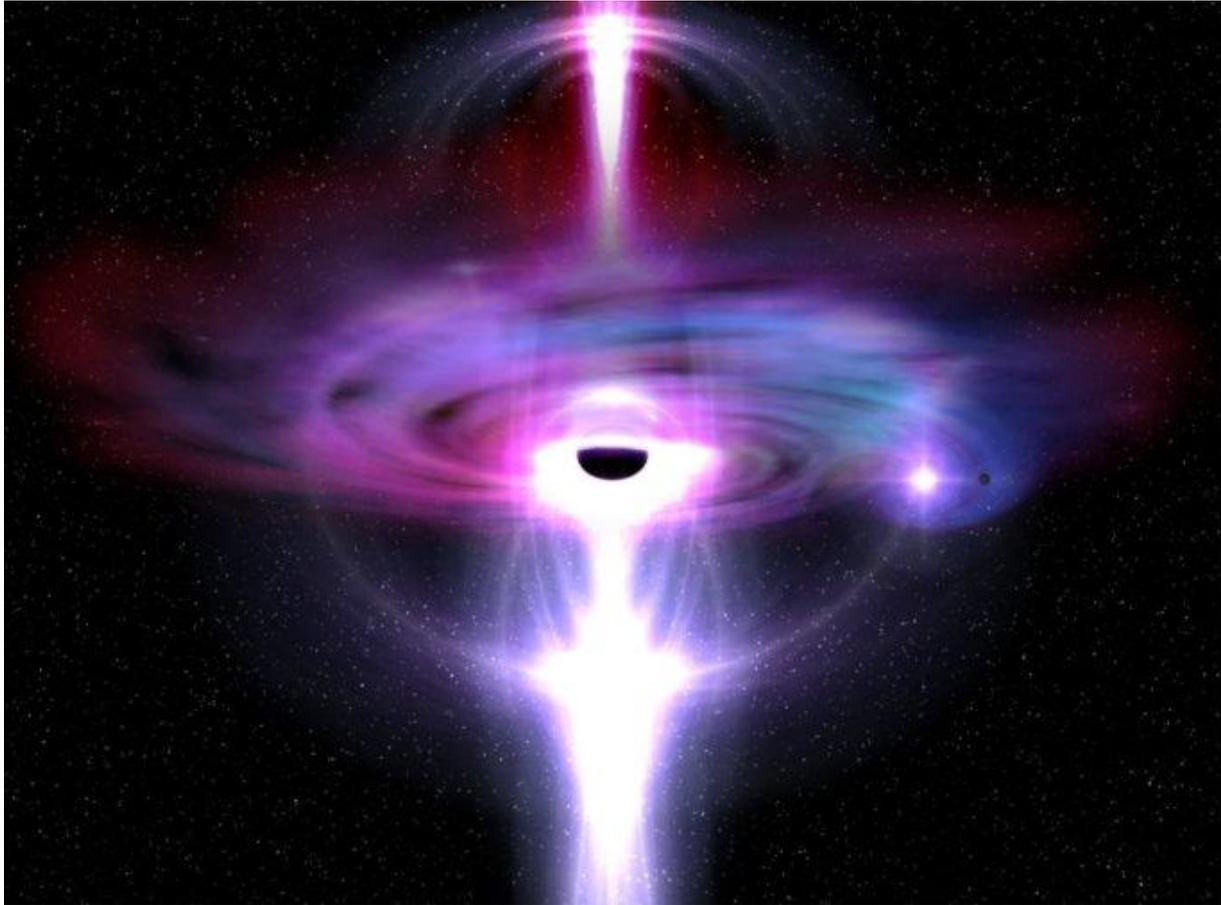

2.3: Saturn in Mythology, Popular Culture & Religion

Aside from the Greco-Roman's [Cult of Saturnalia](#), which was likely formed once the ruling class found out that they were eventually doomed Saturn, the Christian holiday known as [Christmas](#) is celebrated in honor of Jesus (i.e., the Savior) whose birth was announced by a star in the east, namely that of Saturn. The term Saturn (S+T+R+N) and Eastern (S+T+R+N) are consonantly speaking the same for Saturn is evidently due to arrive over Earth from the East. The term "Christmas" is pronounced "Criss Miss" or "Cross Miss" for the Greco-Roman holiday celebrating is hoping to "miss" the destructive force of Saturn's "cross" which is evidently why they have left Earth for the safety of the International Space Station (ISS). The Christian holiday known as [Easter](#) (S+T+R), which transpired on April 16, 2017, just 12-days before the Apocalypse, celebrates the [resurrection of Jesus](#) from the dead for the Greco-Roman Empire is hoping that ISIS (i.e., Jesus) will save them from the Apocalypse and that they will be resurrected on Good Friday, May 26, 2017. The Jewish holiday known as [Passover](#), which transpired from April 10-18, 2017, just 10-days prior to the Apocalypse, celebrates when the Israelites marked the doorposts of their homes with the blood so that the spirit of the Lord knew to "pass over" the first-born in these homes. In the event that the Greco-Roman Empire survives the Passover, they will enjoy the "first-fruits of the barley" as celebrated during the holiday. Aside from the countless references to the [Black Star of Saturn](#) in popular culture, [David Bowie released a song and album in 2016](#) under the title Blackstar. He was evidently assassinated shortly thereafter during a ritualistic blood sacrifice offered up to the Black Star of Saturn. Lastly, if the Greco-Roman Empire is to be victorious over the crossing of [Ceres](#) (i.e. the [Rings of Saturn](#)), it must conquer Saturn. That is why the [Greco-Roman goddess of victory is Nike](#) is celebrated worldwide via [Nike Inc.](#) whose famous [Swoosh logo](#) is an artistic rendition of the rings of Saturn ([see photo](#)), the arch enemy of the Greco-Roman Empire. The Rings of Saturn are evidently depicted in the [logo of Boeing](#), the largest aerospace company in the world which was likely responsible for building the ISS Space Station, as well as in the [logo of NASA](#) who likely coordinated the building of said Space Station(s).

2.4: The Passover

In the aftermath of [Planetary Alignment](#) and [planetary retrograde](#), it's highly likely that one or more planetary bodies will pass over planet Earth which is where the term "[Passover](#)" in the Holy Bible was evidently derived from. The Passover is a Roman-Jewish holiday most intimately associated with the [Plagues of Egypt](#) which coincidentally included "thick darkness in all the land" for three days ([Exodus 10:21–23](#)), "thunder", "hail" and fire which "ran along upon the ground" ([Exodus 9:23-24](#)) which Biblical scholars now equate to lava from volcanic eruptions. The so-called "cleansing" of Earth will also be spiritual in nature, likely resulting in the mass death of "wicked" people ([Exodus 11:46](#)). Consequently, the aforementioned events generally associated with the [Apocalypse](#), the [End Time](#) and the [Three Days of Darkness](#) prophecy will likely be the result of centrifugal and/or gravitational forces caused by planetary [Syzygy](#) (i.e., when planetary bodies are "yoked together"), likely causing a [polar shift](#) of planet Earth and/or a sudden change her vibrational frequency. Despite what the [European Space Agency](#) and [NASA](#) state once one or more planetary bodies pass over Earth, the impending Three Days of Darkness will be a natural phenomenon. That is to say that when a foreign planetary body or bodies pass over Earth it will be a the result of [Ceres](#) (i.e., the [Rings of Saturn](#)), not a foreign object or entity (e.g., Aliens, [Nibiru](#), Planet 9, [Planet X](#), etc.). Consequently, these foreign planetary bodies and/or their respective [Syzygy](#) will render the so-called "cleansing" of planet Earth, including but not limited to: earthquakes, hail storms, lightning storms, mass flooding, thunder storms and volcanic eruptions. That is why the [astrological symbol for Ceres](#) contains both a [sickle and a cross](#) for Ceres will likely cut down the Evil people when it passes over Earth. The release of poisonous gases is also a realistic possibility for Earth may come into contact with the atmospheres of Saturn which is coincidentally known as the [gas giants](#).

2.5: Arrival of Ceres (Rings of Saturn)

Based on its name and symbol alone, it can be deduced that the black dwarf planet known as [Ceres](#) is code-word for the Rings of Saturn which are evidently slated to pass over planet Earth shortly after April 28, 2017. Although Ceres is allegedly the [largest object](#) in the [asteroid belt](#) that lies between the orbits of [Mars](#) and [Jupiter](#) it likely does not exist in our [Solar System](#) for it is likely a veiled reference to the impending Rings of Saturn. Nevertheless, the fact that the [astrological symbol for Ceres](#) contains both a [sickle and a cross](#), the term "Ceres"(C/K+R+S) is consonantly speaking the same as "[Cross](#)" (C/K+R+S), the [official symbol of the Roman Empire](#), for it is evidently "cross" over Earth. The "X" in [Planet X](#) is also a twisted cross, evidently a veiled reference to the dwarf planet Ceres. Consequently, it can be deduced that Ceres and Planet X are in-fact one and the same planetary body. "Ceres" (C/K+R+S) is also consonantly and phonetically speaking the same as "Series" (C/S+R+C+S) for it may be the first in a series of planetary crossings. The letter "C" and the letter "S" are interchangeable within the [Roman-English alphabet](#) (e.g., century, cent, etc.). In the event that [Ceres](#) passes over planet Earth, it will render a prolonged solar eclipse which will ultimately fulfill the [Three Days of Darkness](#) prophecy. In a November 11, 2009 report from NASA entitled "[2012 -- A Scientific Reality Check](#)", Donald Yeomans of NASA's Near Earth Object Program stated that "[There's no Planet Nibiru, there's no "Planet X](#) and nothing is hurtling toward us. But there have been claims on the Internet that there is a planet called Nibiru, four times the size of the Earth that's going to the Earth, or smack it, in December of 2012". The denial of a Planet X was reiterated in a NASA report from December 22, 2012, entitled "[Beyond 2012: Why the World Didn't End](#)" which posed the question: "Is there a planet or brown dwarf called Nibiru or Planet X or Eris that is approaching the Earth and threatening our planet with widespread destruction?". NASA answered the hypothetical question by stating that "Nibiru and other stories about wayward planets are an Internet hoax. There is no factual basis for these claims. If Nibiru or Planet X were real and headed for an encounter with the Earth in 2012, astronomers would have been tracking it for at least the past decade, and it would be visible by now to the naked eye. Obviously, it does not exist. Eris is real, but it is a dwarf planet similar to Pluto that will remain in the outer solar system; the closest it can come to Earth is about 4 billion miles". The reference to a "dwarf planet" appears to be an ominous reference to the dwarf planet Ceres which is evidently slated to pass over Earth. Similar to NASA's fraudulent claims in respect to Planetary Alignment in 2016, there are "scientific" claims of so-called "new" planets within our Solar System which have subconsciously programmed the world for the arrival of Ceres. Firstly, on

December 8, 2015, Cornell University revealed that they "[have detected a previously unknown object in our solar system](#)", a "planet-sized, object, gravitationally unbound" that has since been named "Gna". Secondly, on January 20, 2016, Popular Science published a report entitled "[The Search for the Real Planet X](#)" which revealed that scientists "have found evidence that there's a giant planet in the outer solar system". Thirdly, a day later on January 21, 2016, the New York Post published a report entitled "[Planet X, or Nibiru, Is On a Crash Course with Earth, Doomsayers Believe](#)" which revealed that although many conspiracies, hoaxes and theories surrounding Planet X have previously been debunked, they have gaining in popularity since the discovery of "Planet 9". Fourthly, on January 25, 2016, the Daily Mail published a report entitled "[Discovery of 'Planet 9' has Dramatic Repercussions for the World of Astrology](#)" which revealed that Planet 9 will have a major effect on astrological events, most likely causing a prolonged solar eclipse. Lastly, in order to foreshadow the arrival of Planet X and its inherent "cleansing" of Planet Earth, Russia Today published a report on April 9, 2016, entitled "[Planet X to Really Cause Mass Extinction this Month?](#)". Needless to say, these reports, taken collectively, confirm, albeit in a de facto manner, that the [European Space Agency](#) and [NASA](#) will attempt to deceive the world in respect to the actual cause of the impending Three Days of Darkness. In other words, the impending pass over of [Ceres](#) (i.e., the [Rings of Saturn](#)) will be hyped in the media as the arrival Aliens or a foreign planetary body (e.g., [Nibiru](#), Planet 9, [Planet X](#), etc.).

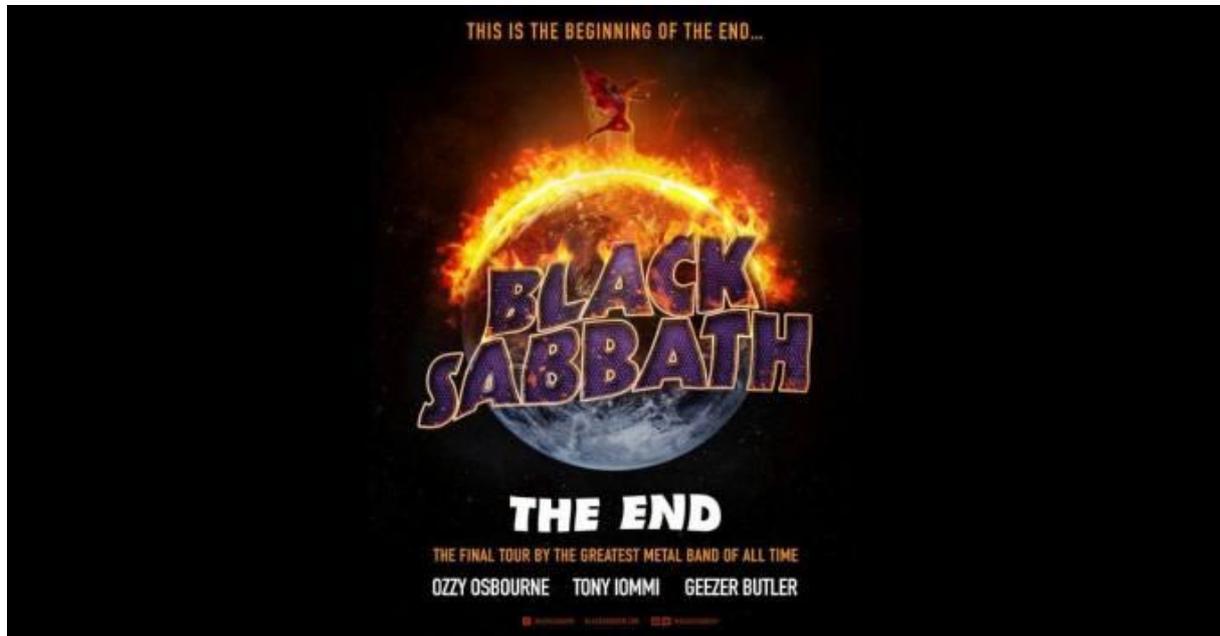

2.6: Hindi God of Rahu

In the [Hindu](#) tradition, [Rahu](#) is the severed head of [Svarbhānu](#) who swallows the [Sun](#), causing [eclipses](#). This is likely where the word "[rue](#)" was ultimately derived from for the World will rue the day when Rahu [Ceres](#) (i.e., the [Rings of Saturn](#)) passes over Earth. Rahu is one of the [navagraha](#) (nine planets) in [Vedic astrology](#) and is often paired with [Ketu](#). In [Vedic](#) astronomy, Rahu is considered to be a rogue planet. The term "[rogue](#)" is defined as "[aberrant](#), dangerous, or uncontrollable" or something that is "different from others in usually a dangerous or harmful way". Legend states that Rahu's immortal head swallows the Sun from time to time, causing [eclipses](#). The Sun passes then through the opening at the neck, ending the eclipse. Rahu is seen as a demon that does his best to plunge any area of life he controls into chaos, mystery, and cruelty. Rahu is also a legendary master of deception who signifies cheaters, pleasure seekers, drug dealers, poison dealers, insincere and immoral acts. This appears to be a veiled reference to the "cleansing" effect that Rahu (i.e., [Ceres](#)) will have upon the wicked people of Earth. Interestingly, the Naganatha Temple at [Thirunageswaram](#), [Tamil Nadu](#), [India](#) is dedicated to the god of Rahu. The daily abhishekam (i.e., an enacted prayer, rite of passage and/or religious [rite](#) or [ritual](#)) during Rahu Kaalam features milk that turns light blue when it flows down and touches the statue of Rahu. The ritual, which has been followed for over 1,500-years, is an apparent tribute to the blue lightning of Rahu (i.e., [Ceres](#)) which is likely the result of [Syzygy](#) (i.e., when planetary bodies are "yoked together"). Lastly, according to Hopi prophecy, "When the Blue Star

Kachina makes an appearance in the Heavens, the Fifth World will emerge". Although Ceres is allegedly black in color, it may turn blue with lightning once it nears Earth due to the aforementioned Syzygy.

III. APOCALYPSE NOW:

3.1: End of the World Programming

In order to program the masses for the so-called End of the World, the [heavy metal](#) band [Black Sabbath](#) started "[The End Tour](#)" on January 20, 2016, the same date which Planetary Alignment commenced. The logo of The End Tour (see above photo) depicts the 'Great Ring of Fire' which is what the arrival of [Ceres](#) (i.e., the [Rings of Saturn](#)) will evidently look like (see below). The latest End of the World programming was depicted in a Fox News report from October 5, 2016, entitled "[Ancient Mayan Codex Found to be Oldest Document from the Americas](#)" which revealed that the Grolier Codex, which consists of Mayan paintings and a calendar that charts the movement of Venus, is authentic in nature and dates back to the first half of the 13th century, making it the oldest surviving document from the Americas. Needless to say, timing of the report is highly suspect. It was evidently disseminated to sell the notion that the Maya Calendar is real and therefore will end at a future date. In what appears to be more Back Sun End of the World foreshadowing, the Express published a report on September 30, 2016, entitled "[Warning Black Moon Tonight: Astrological Event to Herald 'End of Days' and Second Coming](#)". Roughly 2-weeks prior on September 15, 2016, TIME published a report entitled "[Giant Moon Balloon Rolls Through Traffic in China](#)" which highlighted a publicity stunt in which an inflatable moon was erected just prior to the arrival of Typhoon Meranti. Naturally, the storm broke the moon loose, raising the notion of rouge planets just prior to the arrival of [Ceres](#) (i.e., the [Rings of Saturn](#)). In order to foreshadow that a great eclipse is imminent, USA Today published a report on August 21, 2016, entitled "[The 'Great American Eclipse' Is a Year From Today](#)". In all likelihood, the eclipse will not transpire and was likely fabricated as political cover for the global eclipse slated to occur on April 28, 2017. In what appears to be a veiled warning to all of Europe that Earth changing cosmic events are imminent, it was also reported on August 21, 2016, that the [German government told its citizens to begin storing food and water](#). The 69-page Doomsday report stated "prepare appropriately for a development that could threaten our existence and cannot be categorically ruled out in the future". In order to foreshadow that the End of the World is imminent, the Independent published a report on August 20, 2016, entitled "[Doom 101: North Korean Students Taught to Prepare for the End World](#)". In order to psychologically prepare the world for the end of the Maya Calendar, the film entitled "[It's Only the End of the World](#)" (2016) debuted at the [2016 Cannes Film Festival](#) in France on May 19, 2016. Interestingly, the [poster for the film](#) depicts a man looking toward the heavens with someone else covering his eyes, an apparent homage to the impending arrival of [Ceres](#) (i.e., the [Rings of Saturn](#)). The notion that the so-called End of the World will transpire with the year was foreshadowed by an Independent report from June 1, 2015, which claimed that the "[End](#)" of mankind predicted by the Jehovah Witnesses could happen this year. Lastly, the notion

that the Maya Calendar will end at a later date was foreshadowed by a CIA-spawned report from December 23, 2014, entitled "[The Maya Calendar is Off By 3 1/2 Years!](#)". In short, the report claimed that the Maya Calendar ends on May 21, 2016, when employing the [Mayan Haab Calendar](#). Considering the report's math is erroneous in nature and the prophecy obviously failed to come to fruition, it can be deduced that the report was disseminated to muddy the waters in respect to future claims that the Maya Calendar actually ends years after December 21, 2012.

IV. ALIEN INVASION HOAX

4.1: Project Blue Beam

Aside from the creation of [Area 51](#) in 1955, there have been numerous state-sponsored projects and studies which were created in order to sell the notion that evidence of aliens and UFOs exist on a governmental level. This was evidently done in order to substantiate claims of alien and UFO activity just prior to denying it, making the notion of a cover-up seem all the more plausible. These projects and studies include but are not limited to: [Project Sign](#) (1947), [Estimate of the Situation](#) (1948), [Project Grudge](#) (1949), [Project Magnet](#) (1950), [Project Blue Book](#) (1952), [Project Second Storey](#) (1952) and the [Condon Committee](#) (1968). When [Ceres](#) (i.e., the [Rings of Saturn](#)) finally arrives, the CIA along with various World governments will predictably reference the aforementioned projects and studies in a premeditative effort to sell the notion that the Earth is undergoing an alien invasion. In other words, evidence from said projects and studies will be cited in the media as undeniable proof that Earth is undergoing an alien invasion. Alleged alien aircraft and authentic-looking alien bodies will predictably be shown on TV. That is why no alien or UFO evidence has been released to date for the CIA is waiting for the arrival of [Ceres](#) (i.e., the [Rings of Saturn](#)). The notion that the arrival of [Ceres](#) (i.e., the [Rings of Saturn](#)) will be sold by the CIA-run media as an alien invasion was foreshadowed by the "[Illuminati Game](#)" (1982) which features a card entitled "[Church of Middle America](#)" that depicts a full-scale alien invasion. The Illuminati Game has cards which in essence predicted the 9/11 Attacks, the rise of Obama, as well as the Fukushima disaster. Roughly 12-years later in 1994, French journalist [Serge Monast](#) disclosed NASA's "[Project Blue Beam](#)" which was in-part designed to sell the notion that the arrival of a planetary body (i.e., [Ceres](#)) is inherently man-made in nature, which it obviously won't be. Project Blue Beam will reportedly feature: a) man-made earthquakes at precise locations around the world, b) a gigantic space show beamed all over the planet simultaneously which will set loose "millions of programmed religious fanatics through demonic possession on a scale never witnessed before", c) a hoax that will make humanity believe that an alien invasion is about to occur in every major city, and d) a second hoax that will make Christians think that the Rapture is about to

happen. In order to further program humanity for the alleged alien invasion of Earth, scores of Hollywood propaganda films have been released over the last few decades such as "[The Arrival](#)" (1996)" and "[Arrival](#)" (2016) which debuted at the [Venice Film Festival](#) in Italy on September 1, 2016. The movie poster for "Arrival" features a massive disc above planet Earth (see above photo) which was evidently designed to foreshadow the arrival of [Ceres](#) (i.e., the [Rings of Saturn](#)).

4.2: Alien & UFO Disclosure Trending

In order to program the masses of the World for the impending arrival of [Ceres](#) (i.e., the [Rings of Saturn](#)) which will predictably be touted by the CIA-run media as an alien invasion, politicians have been going out of their way to foreshadow that an alien disclosure is imminent, one which will eventually manifest itself in reality. Alien and UFO foreshadowing started in earnest back in March of 2016 when former First Lady and 2016 U.S. Presidential candidate [Hillary Clinton stated in respect to disclosure](#) that "I'm going to do it again. There's a new name for UFOs. It's Unexplained Aerial Phenomenon. That's the new nomenclature. I would like us to go into those files and hopefully make as much of that as public as possible. If there's nothing there, let's tell people there's nothing there. If there is something there, unless it's a threat to national security, we ought to share it". Clinton's premeditative statements are key for they: a) introduced the world to the new term "Unexplained Aerial Phenomenon" (UAP), and b) foreshadowed that future UAP will be deemed a "threat to national security". Based on Clinton's statement, it can be deduced that the impending arrival of [Ceres](#) (i.e., the [Rings of Saturn](#)) will be "unexplained" to the public and that the governments of the world will declare the planets arrival as a threat to national security in order to terrorize and/or possibly cull billions of people. Roughly two months after Clinton's statements, it was reported on May 26, 2016, that U.S. President Barack Obama "[will reveal alien and UFO details held by the U.S. before he leaves office](#)" which transpired on January 20, 2017, the date which Planetary Alignment commenced albeit a year prior. Lastly, author and propagandist [Ben Mezrich](#) published a new book on September 6, 2016, entitled "[The 37th Parallel: The Secret Truth Behind America's UFO Highway](#)" which was designed to sell the notion that UFOs are real just prior to the arrival of [Ceres](#) (i.e., the [Rings of Saturn](#)). A [Hollywood movie with the same title](#) is also forthcoming. On September 23, 2016, roughly 2-weeks after Mezrich's book was released, USA Today published a report entitled "[Stephen Hawking: If Aliens Call, We Should be 'Wary of Answering'](#)" which was evidently designed to sell the notion that the impending alien invasion will be violent in nature. That same day, September 23, 2016, Fox News published a report entitled "[Are Aliens Avoiding Earth?](#)" which suggests that aliens know where Earth is and therefore are more likely to visit at a future date. Lastly, also on September 23, 2016, the BBC published a report entitled "[What If the Aliens We are Looking for are AI?](#)" which was evidently designed to foreshadow the notion that aliens are much smarter than humans, making the likelihood of survival upon an encounter less likely.

V. BLOOD MOON PROPHECY:

5.1: Blood Moon Prophecy

The [Blood Moon Prophecy](#) was a series of [apocalyptic beliefs](#) promoted by Christian ministers [John Hagee](#) and Mark Biltz which claimed that a [tetrad](#) (a series of four consecutive [lunar eclipses](#) with six full moons in between) was a sign from God that the [End Times](#) depicted in the Holy Bible were imminent. In short, the Blood Moon Prophecy is based on [Acts 2:20](#) which states that "The Sun shall be turned into darkness, and the moon into blood, before the great and notable day of the Lord come", and [Revelation 6:12](#) which states "And I beheld when he had opened the sixth seal, and, lo, there was a great earthquake; and the Sun became black as sackcloth of hair, and the moon became as blood". Based on these Biblical accounts, it can be deduced that the Earth will suffer massive earthquakes on the End of Days which will evidently transpire at a future date. Although the Blood Moon Prophecy began with a [lunar eclipse on April 15, 2014](#), and ended with a lunar eclipse on [September 27, 2015](#), there was a [solar eclipse on March 9, 2016](#), and a [solar eclipse on September 1, 2016](#), which were mysteriously not accounted for in the prophecy. Although only conjecture, this is likely because the "sixth" and "seventh" seals (see below) depicted in the Bible are in fact the sixth and seventh eclipses. Had they been included in the original prophecy, the World would have been looking to 2016 or beyond for the fulfillment of the Blood Moon Prophecy. Although Geoff Gaherty of [Space.com](#) stated that the rash of eclipses were not a sign of the impending Apocalypse and were "hardly something to be concerned about", the 7 eclipses are obviously a cosmic indication that transformative apocalyptic-like events are imminent.

VI: THE SEVEN SEALS PROPHECY:

6.1: The Seven Seals

The [Seven Seals](#) within the [Book of Revelation](#) allegedly refer to the 7 symbolic [seals](#) that secure the scroll that [John of Patmos](#) saw in his so-called "Revelation of Jesus Christ". The Seven Seals allegedly contain secret information known only to [God](#) until the Lamb/Lion was found worthy to open the scroll and to look at its contents. In reality however, the Seven Seals are a veiled reference to the 7 eclipses which have transpired since April 15, 2014, the last occurring on September 1, 2016. That being said, an eighth [solar eclipse](#) transpired on February 26, 2017. Hence it can be deduced that the Seven Seals were in-part a numerical hoax designed to mislead the public from the fact that there are 8 eclipses in total. Although the Seven Seals were to be sealed up (i.e., "not understood") until the [end of the age](#), they have now been deciphered as nothing more than the premeditated script for the systematic destruction of the World which was slated to transpire in the years prior to the End of the Mayan Calendar. Because the letter "S" is interchangeable with the letter "C" (which doubles as the letter "K") in the Roman-English language, the term "Seal" (C/S+L) is consonantly speaking the same as both "Cull" (C/S+L) and "Kill" (C/K+L). That is why all four Blood Moons fell on the Jewish Holidays of [Passover](#) and [Sukkot](#) which are coincidentally known for their "burnt offerings" (i.e., blood sacrifices). Two of the three solar eclipses also fell on [Rosh Chodesh Eve](#) and/or [Special Shabbat Eve](#), both of which also entail blood sacrifices. In other words, the Seven Seals (i.e., the seven eclipses) were designed to be the "Seven Culls", resulting in mass death in the Underworld. This is why the the opening of the first Four Seals releases the [Four Horsemen](#) which are symbolized as [Conquest](#) or [Pestilence](#) (i.e., disease), [War](#), [Famine](#) and [Death](#), respectively. The opening of the Fifth Seal releases the cries of martyrs for the "Wrath of God", while the Sixth Seal prompts earthquakes and cataclysmic events. The Seventh Seal cues the [Seven Bowls](#) (i.e., Seven Plagues) which are described as follows: First Bowl: "foul and painful sores"; Second Bowl: "seas and the oceans become blood as of a dead man, forcing everything in the sea to die"; Third Bowl: "rivers and the remaining sources of water turn to blood"; Fourth Bowl: "Sun causes a major heatwave to scorch the planet with fire"; Fifth Bowl: "thick darkness overwhelms the kingdom of the beast"; Sixth Bowl: "demonic spirits work Satanic miracles to gather the nations of the world to battle against the forces of good during the [Battle of Armageddon](#)"; and the Seventh Bowl: "global earthquake causes the cities of the world to collapse. Every mountain and island are removed from their foundations". However, due to timely

terror alerts from Truther.org, all four Blood Moons as well as the three solar eclipses remained earthquake and terror free. According to [Revelations 8:1](#), "And when he had opened the Seventh Seal, there was silence in heaven about the space of half an hour". This verse is an apparent reference to the short time between the solar eclipse of September 1, 2016, and the end of the Mayan Calendar on April 28, 2017. Lastly, [Revelations 8:5](#) states in respect to the Seventh Seal that "...the angel took the censer, and filled it with fire of the altar, and cast it into the earth: and there were voices, and thunderings, and lightnings, and an earthquake". Consequently, the arrival of [Ceres](#) (i.e., the [Rings of Saturn](#)) may induce a string of earthquakes, possibly man-made in nature.

VII. 2016 PLANETARY ALIGNMENT:

7.1: Planetary Alignment

Considering that the [Maya Calendar](#) was astrological in nature, it can be deduced that its end-date would be preceded by a series of astrological events, namely Planetary Alignment. Planetary Alignment is "[When the stars align](#)", an idiom which is defined by the Urban Dictionary as "when an unexpected and nearly impossible event takes place. Usually due to pure luck or the divine intervention of God". In other words, it's the rarest of celestial events. In a July 5, 2009, report from Universe Today entitled "[Planetary Alignment](#)", it states that "You may have heard a lot about future

planetary alignments, including rumors about 12/21/2012 when some say the world is going to end, and there will be a planetary alignment. That is all it is, a rumor. There will be no planetary alignment in 2012...In September of the year 2040, four of the planets – Saturn, Venus, [Jupiter and Mars](#) – will be roughly aligned when seen from Earth". The notion that Planetary Alignment is intimately tied to the end of the Maya Calendar was addressed by NASA in an November 11, 2009, report entitled "[2012 -- A Scientific Reality Check](#)" in which Donald Yeomans of NASA's Near Earth Object Program stated that "There are no planetary alignments in 2012. There [won't be any planetary alignments for a couple of decades](#) on either side of 2012. And even if there were, it wouldn't be an effect because the only objects in space that materially affect the Earth's motion are the Sun and the moon". NASA reiterated this notion roughly 3-years later on December 22, 2012, in a report entitled "[Beyond 2012: Why the World Didn't End](#)" which posed the question: "Could planets align in a way that impacts Earth?". Again, NASA emphatically stated that "[There are no planetary alignments in the next few decades](#) and even if these alignments were to occur, their effects on the Earth would be negligible. One major alignment occurred in 1962, for example, and two others happened during 1982 and 2000. Each December the Earth and Sun align with the approximate center of the Milky Way Galaxy but that is an annual event of no consequence". Despite Universe Today and NASA's official statements in respect to impending Planetary Alignment, [Jupiter, Mars, Mercury, Saturn and Venus aligned](#) for 31-days from January 20, 2016, until February 20, 2016, evidently a once in a 5,125-year event known as [Harmonic Convergence](#) (see below). That is why 2016 is known as the [Great Year](#) in astronomy which the Greek philosopher [Plato](#) (c. 427–347 BC) referred to as the "perfect year" in which the celestial bodies ([planets](#)) and the [diurnal](#) rotation of the fixed [stars](#) (circle of the Same) return to their original positions (i.e., the [31-day planetary alignment of 2016](#)). The Roman philosopher [Cicero](#) (106–43 BC) wrote in [De Natura Deorum](#) (45 BC) that the [Great Year](#) will be completed "...when the Sun, Moon and five planets having all finished their courses have returned to the same positions relative to one another" which is exactly what happened during the Planetary Alignment of 2016. Needless to say, the reports from NASA and Universe Today in respect to Planetary Alignment are fraudulent in nature and were premeditatedly disseminated at the behest of the CIA in order to dismiss the notion that Planetary Alignment is intimately tied to the end-date of the Maya Calendar. Since Planetary Alignment commenced in 2016, it can be deduced that the end of Mayan calendar will transpire within the calendar year.

VIII. 2016 PLANETARY RETROGRADE:

8.1: Planetary Retrograde

Shortly after Planetary Alignment transpired from [January 20, 2016 until February 20, 2016](#), the planets began to enter what is known as [retrograde](#) status. These cosmic events were confirmed by

a New York Daily News report from April 1, 2016, which revealed that "[By the end of April, there will be five planets in retrograde](#) - Pluto, Saturn, Jupiter, Mars and Mercury". On April 28, 2016, the [5 classical planets went into "retrograde" status](#) which was evidently a once in a 5,125-year event. Since all of the [planets](#) orbit the [Sun](#), retrograde occurs when said planets begin to move in the opposite direction of the Sun, a clear sign that transformative cosmic events are imminent. Considering that the planets in question lie roughly on the same flat plane within our [Solar System](#) (i.e., [plane of the ecliptic](#)), it appears that [Ceres](#) (i.e., the [Rings of Saturn](#)) are now moving into position to pass over planet Earth.

2016 Planetary Retrograde Timeline:

1. Jupiter Retrograde (January 7, 2016—May 9, 2016)
2. Mars Retrograde (April 17, 2016—June 29, 2016)
3. Mercury Retrograde (April 28, 2016—May 22, 2016)
4. Pluto Retrograde (April 17, 2016—September 26, 2016)
5. Saturn Retrograde (March 25, 2016—August 13, 2016)

IX. THREE DAYS OF DARKNESS PROPHECY:

9.1: Three Days of Darkness Prophecy

Based on both Biblical and Mayan prophecy, it appears that [Three Days of Darkness](#) prophecy will commence at the [End of Days](#) which will evidently transpire on April 28, 2017. Predictably, the [European Space Agency](#) and [NASA](#) will state that the prolonged darkness is a result of a foreign object or entity within our Solar System (e.g., Aliens, [Nibiru](#), Planet 9, [Planet X](#), etc.), not [Ceres](#) (i.e., the [Rings of Saturn](#)) as a result of [Planetary Alignment](#) which they repeatedly denied would even transpire. Nevertheless, in order to psychologically prepare the World for the impending darkness, the International Business Times published a report on January 19, 2016, entitled "[No 15 Days of Darkness Despite 5-Planet Alignment on Jan 20-Feb 20](#)", ultimately raising the specter of darkness in the aftermath of planetary alignment. The concept of "[Three Days of Darkness](#)" harkens back

to [Exodus 10:22](#) in the Holy Bible which states that "...Moses stretched forth his hand toward heaven; and there was a thick darkness in all the land of Egypt three days". There is also a reference to darkness in [Amos 5:20](#) which states that "Shall not the day of the Lord be darkness, and not light? Even very dark, and no brightness in it?". The "day of the Lord" appears to be a veiled reference to first days of darkness. There is also an episode in three of the [Canonical Gospels](#) in which the sky becomes dark for three hours during the [crucifixion](#) of [Jesus](#). Firstly, [Matthew 27:45](#) states that "Now from the sixth hour there was darkness over all the land unto the ninth hour". Mathew's account of the crucifixion and subsequent darkness includes an earthquake and the raising of the dead. Secondly, [Mark 15:33](#) states "And when the sixth hour was come, there was darkness over the whole land until the ninth hour". Mark's account of the crucifixion and subsequent darkness transpired on the eve of [Passover](#), an apparent reference to the impending pass over of [Ceres](#) (i.e., the [Rings of Saturn](#)). Thirdly, [Luke 23:44-45](#) states "And it was about the sixth hour, and there was a darkness over all the earth until the ninth hour. And the Sun was darkened, and the veil of the temple was rent in the midst". Evidently, Luke originally explained the darkness as an [eclipse](#). Although the majority of Gospel of Luke manuscripts include the Greek phrase "eskotisthe ho helios" (i.e., "the Sun was darkened"), the earliest manuscripts state "tou heliou eklipontos" (i.e., "the Sun's light failed" or "the Sun was in eclipse"). Considering that there are three accounts (i.e., Matthew, Mark and Luke), three crosses, three crucifixions and three purported hours of darkness, it can be deduced that, numerologically speaking, there will be: a) three days of darkness, and/or three planets which pass over planet Earth. Aside from the Biblical references, there is an unsubstantiated narrative entitled "[Three Days of Darkness: A Mayan Story](#)" which gives a first-hand account of the darkness through the eyes of a Mayan grandmother who was very young when "[she and all the people woke up to no Sun](#)", eventually living through "[three days of darkness](#)". The time of darkness had been foretold by the Mayan elders for it "had happened many, many times before" so the "elders began to build the fires, for the fires must be lit or the darkness can drive some to madness". The grandmother recalled that "when the people become too wicked, when we forget to worship the Gods and have respect for all life, that the [Gods block out the Sun to remind us of the sacred ways](#) and the importance of worship and of gratitude for life". The grandmother also stated that "the darkness would come again" because "the people will always stray far from their Creator and must be reminded time and time and time again". According to [Marie-Julie Jahenny](#) (1850-1941), who was intimately affiliated with the Roman Catholic Church, the Three Days of Darkness prophecy will commence when "The days will be beginning to increase" (days start to get longer after December 22). Jahenny also predicted that the [Three Days of Darkness](#) would "not be at the height of summer nor during the longer days of the year (summer time), but when the days are still short (late winter or early spring time). Jahenny also prophesized that the Three Days of Darkness "will not be at the end of the year (December), but during the first months (of the year)". In the song "[Pueo](#)" (2012) by [Nahko Bear and Medicine for the People](#), it states that "There will come a day...When the Sun don't shine...And the Moon don't rise in its cycle". Whether the song is a modern tribute to Native American or Hawaiian prophecy about the impending Three Days of Darkness is not known, but it's highly likely. Lastly, in order to psychologically program the world for the impending [Three Days of Darkness](#), the Sun disappeared eclipse-style in the opening scene of the new film "[Star Wars: The Force Awakens](#)" (2015), the single-highest grossing movie of all-time. The film also features a Death Star-like [Starkiller Base](#) which sucks energy from the Sun, causing it to go black.

NASA Confirms Earth Will Experience 6 Days of Total Darkness in December 2014!

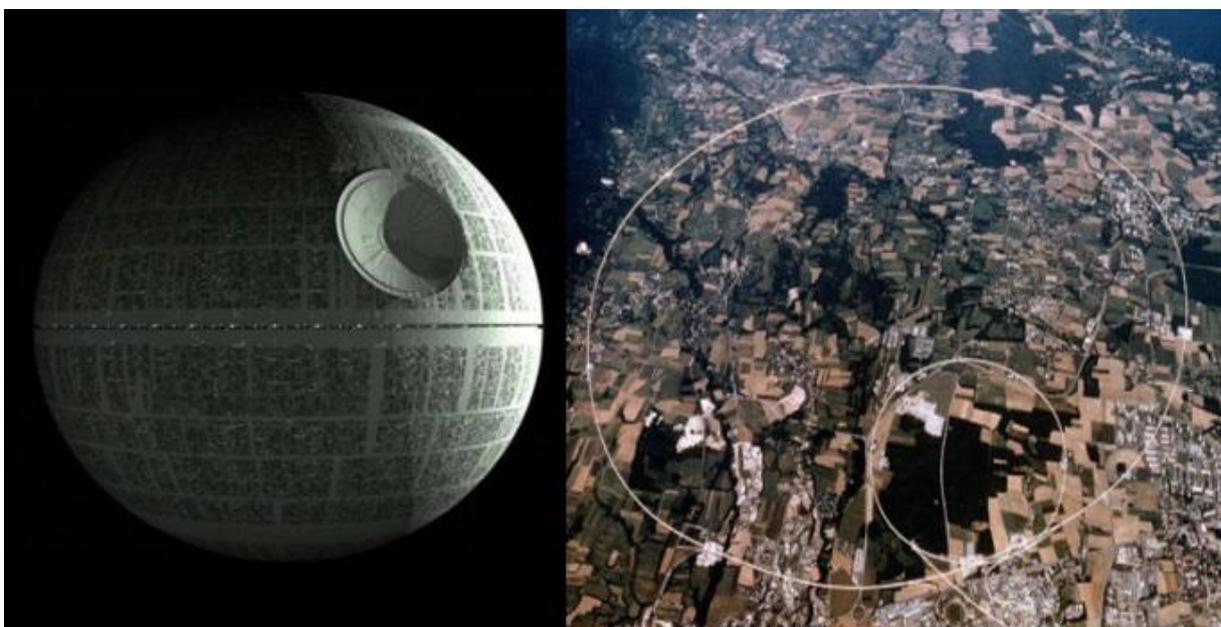

WORLDWIDE - NASA has confirmed that the Earth will experience 6 days of almost complete darkness and will happen from the dates Tuesday the 16 - Monday the 22 in December. The world will remain, during these three days, without sunlight due to a solar storm, which will cause dust and space debris.

9.2: Six Days of Darkness Hoax

In order to psychologically prepare the World for the impending [Three Days of Darkness](#), as well erroneously dismiss the notion that Three Days of Darkness is scientifically possible, the Independent published a report on October 28, 2014, entitled "[NASA Confirms Earth Will Experience 6 Days of Total Darkness in December 2014!](#)". After the hoax went viral on the internet and various social media platforms, the Times of India published a report on October 28, 2014, entitled "[NASA's 'Six Days of Total Darkness in December 2014' is a Hoax](#)". By working in tandem at the behest of the CIA, NASA and various media outlets were able to effectively spread the false notion of 6 Days of Darkness by first stating that it was true and then later stating that it was a hoax, on the very same day. The fact that NASA even addressed this seemingly outlandish claim confirms, albeit in a de facto manner, that: a) they were in-fact party to the hoax for nefarious reasons, and b) that multiple days of darkness are indeed imminent. Said days of darkness will evidently commence on April 28, 2017, roughly -months after the hoax was originally slated to take place.

X. DEPARTURE OF THE DEATH STAR:

10.1: The Death Star

In the event that [Ceres](#) (i.e., the [Rings of Saturn](#)) induce a physical and/or spiritual "cleansing" of Earth, the [Greco-Roman Empire which rules over planet Earth](#) will no doubt be destroyed. Consequently, it stands to reason that they would attempt to vacate Earth prior to the End of the [Maya Calendar](#) in order to return at a later date in a premeditative attempt to regain control. As originally depicted in the Truther.org report from August 1, 2015, entitled "[Death Star Appears Over CERN, Switzerland, Home of the CIA](#)", Swiss citizens began to notice a bright new star in Switzerland's western sky in March of 2015. At the very same time, a similar star was reportedly seen in Thailand which suggests that there are at least two Death Stars. Vividly brighter than [Venus](#) which flanked it, the apparently man-made Death Star was located approximately 1,000 miles above Earth in [Lower Earth Orbit](#) (LEO). Interestingly, the Death Star was temporarily positioned above [CERN](#) which is located just outside of Geneva, Switzerland, the de facto capital of the underworld. Coincidentally, the geometry of [CERN](#) mimics that of the [Death Star](#) from [Star Wars](#) exactly because CERN is evidently the Death Star's command center which doubles as an advanced nuclear laboratory. Exactly what the Death Star is or how it arrived above CERN is not yet known, but it's highly likely that it was conducting some form of communication-related beta-testing. Although it's called the "Death Star", it is in reality a "Life Star" for it was built to save the life of the Greco-Roman Empire during the Apocalypse which will commence at the End of the [Maya Calendar](#). Whether the [International Space Station](#) (ISS) is the operational cover for the Death Star is not known, but it's highly likely for "ISS" (S+S) and "Suisse" (S+S), the original name of Switzerland, are consonantly speaking the same term. Consequently, "ISS" may in fact be code word for the Death Star which, like Switzerland (home of the CIA), is responsible for keeping the Greco-Roman Empire safe. Although the Death Star disappeared from the Swiss sky around July 15, 2015, it was likely moved above Greenland or another remote location where it could remain hidden from the prying eyes of the underworld.

10.2: NASA's Death Star Hoax

Because [CIA Headquarters beneath Lake Geneva](#) (known locally in Switzerland as the [Federal Intelligence Service](#)) is actively spying on author and journalist [David Chase Taylor](#) by monitoring his cell phone and computer, they knew that he was planning to publish his report on the Death Star above Switzerland. In order to preempt his impending report, [NASA published a propaganda report on June 11, 2015](#), stating that the Death Star was a naturally occurring phenomenon. In short, NASA claimed that the Death Star was the conjunction of Jupiter and Venus, a [phenomenon which reportedly won't happen again until 2023](#). The first problem with [NASA's report](#) is that they state that

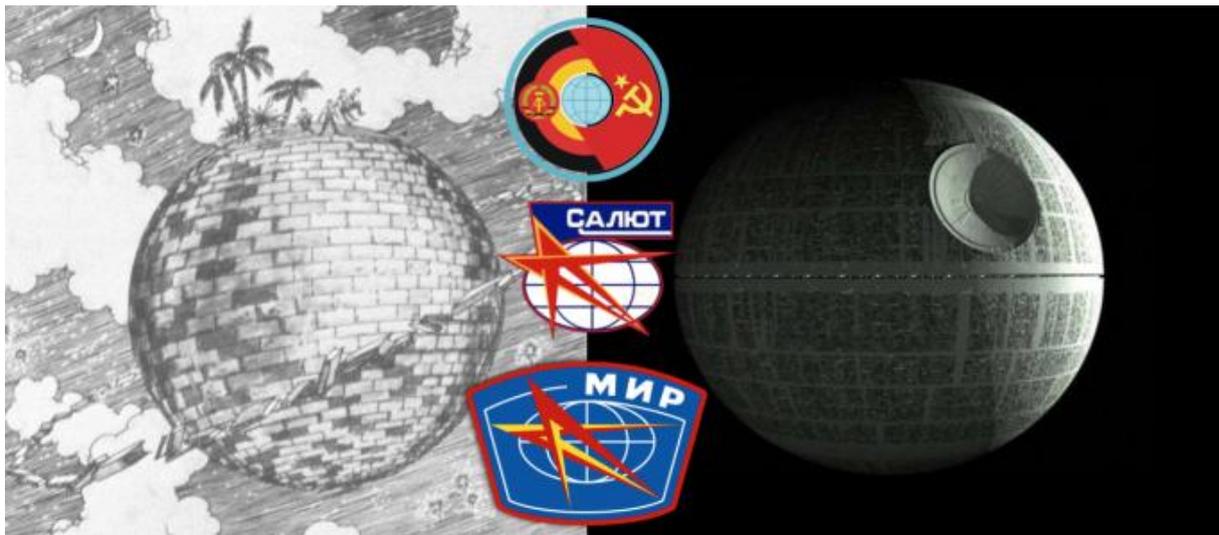

the phenomenon was only relegated to June of 2015. This completely contradicts scores of eyewitness reports which claim that the Death Star was visible in the Swiss sky since March of 2015. Taylor personally witnessed the Death Star in May of 2015 and monitored it almost daily until it disappeared on or around July 15, 2015. The second problem with [NASA's report](#) is that there is currently no star as bright as the Death Star in the night sky. In other words, when Jupiter and Venus are located, their brightness fails in comparison to that of the Death Star as depicted in numerous photos and videos. The third problem with [NASA's report](#) is that there is no star as large as the Death Star in the night sky. That is to say that when the largest stars are located, their size fails in comparison to that of the Death Star as depicted in numerous photos and videos. The fourth problem with [NASA's report](#) is that there are no photos or videos corroborating Jupiter and Venus' alleged conjunction. In other words, there is no evidence which depicts the gradual conjunction of the two planetary bodies; they are only seen at the same relative distance to each other as depicted in numerous photos and videos. Lastly, in order to muddy the waters in respect to the Death Star, Russia Today published a report on July 1, 2015, entitled "[Thousands Catch Jupiter, Venus Forming Super Bright 'Star of Bethlehem'](#)". The reference to the "[Star of Bethlehem](#)" was designed to attach a Biblical connotation to the Death Star, further selling the notion that its appearance was a naturally occurring phenomenon.

10.3: Departure of the Death Star

Based on breaking news and events, it appears that the [Greco-Roman Empire in Greenland](#) vacated Planet Earth for the [International Space Station](#) (i.e., the Death Star) on May 21, 2016. The notion that the Greco-Romans are leaving Earth was confirmed, albeit in a de facto manner, on April 20, 2016, when Yahoo published a report entitled "[Sun God Apollo Presides Over Final Flame Rehearsal](#)". The timing of the report suggests that the [Eternal Flame of Rome](#) in Greenland was transferred to the Death Star just prior to its departure. As originally depicted in the 20 Minutes report from May 9, 2016, entitled "[Mysteriöser Regen-Kreis verblüfft Meteorologen](#)", a weather satellite in Switzerland identified a ring-shaped formation of rain clouds above CERN (see above photo), despite the fact that there was no clouds in the sky. Although only conjecture, it appears that the Death Star made its final visit to CERN before its scheduled departure from Earth on May 21, 2016. The notion that a select number of people will be spared from the impending Apocalypse on Earth is known in Christian eschatology as the [Rapture](#) which claims that 144,000 people will be suddenly taken off Earth in order to escape the [Great Tribulation](#) at the [End of Days](#). The number 144,000 was evidently derived from the term [Baktun](#) in the [Maya Calendar](#) which equates to 144,000 days. The [Maya Calendar](#) (i.e., the "Calendar of May") was given its respective name because it ends (at least for the Greco-Romans) in the month of "May" (M+Y), a term which is consonantly speaking the same as "Maya" (M+Y). The notion that [May 21st is the End of Days](#) for the Greco-Roman Empire was foreshadowed back in 2011 when American Christian radio host [Harold Camping](#) claimed that the [Rapture](#) and [Judgment Day](#) would take place on May 21, 2011. Although the prediction was a hoax, the date of May 21st became synonymous with the End of the Maya Calendar. The date of May 21, 2016, transpired exactly 41 months after the original Doomsday date of December 21, 2012. The number "41" is special to the [Greco-Roman Empire in Greenland](#) and is reflected in the national motto of Switzerland (i.e., "[Unus](#)

[pro omnibus, omnes pro uno](#)”), which is coincidentally [home to the CIA](#). Translated from Latin, the phrase means "One for all, all for one", or numerically speaking, "14 All and all 41". The [number "14"](#) equates to the letter "X" in the [Roman Score](#) (i.e., the Roman alphabet), an acronym for death, while the [number "41"](#) equates to the letters "DA". Acronymically speaking, the letters "DA" equates to "D", an acronym for "Day" which is representative of the 24/7 day-like conditions of Greenland due to [Earth's second moon](#), an "A" which is representative of the All Seeing Eye of Greenland. Consequently, the 41-month delay in the Maya Calendar is a numerological tribute to the Greco-Roman Empire which evidently vacated Earth on May 21, 2016, in a desperate attempt to stave off extinction. Lastly, the notion that the Roman Empire will abandon Earth for outer Space was foreshadowed in the song by Europe entitled "[Final Countdown](#)" (1986) which states "We're leaving together...But still it's farewell...And maybe we'll come back...To Earth, who can tell?...I guess there is no one to blame...We're leaving ground...Will things ever be the same again?...It's the final countdown"([see video](#)).

10.4: Secret Plans for the Death Star

The notion that the [Greco-Roman Empire in Greenland](#) was planning to build "space stations" in a desperate attempt to avoid the Apocalypse is corroborated by the book by [Edward Everett Hale](#) entitled [The Brick Moon](#) (1869) which was published roughly 148-years ago. In short, [The Brick Moon](#) ([see PDF](#)) describes the construction of space stations which look eerily similar to that of the aforementioned Death Star. Although [The Brick Moon](#) was allegedly built as a navigational aid, it was "accidentally" launched into [orbit](#) with people on board who lived to tell about it. The link between man-made space stations and Greenland was also made in [The Brick Moon](#) which states that "...we fell to work on plans for making the [space station] large and very light...lest it should fall on the heads of the Greenlanders or the Patagonians; lest they should be injured and the world lose its new moon". The notion that the inhabitants of the space stations rule over planet Earth is also found within [The Brick Moon](#) which states "Can it be possible that all human sympathies can thrive, and all human powers be exercised, and all human joys increase...Can it be possible that our passion for large cities, and large parties, and large theaters, and large churches, develops no faith nor hope nor love which would not find aliment and exercise in a little 'world of our own'?". In other words, the Death Stars were built to enable the Greco-Roman Empire to continue on with life as they know it, albeit in Space. Based on an excerpt in [The Brick Moon](#) which states "Start, then, two moons...Suppose one over the meridian of Greenwich, and the other over that of New Orleans", it can be deduced that at least two space stations have been built. Coincidentally, there are [two Death Stars](#) in the Star Wars film series. The [Space Race](#), a 20th-century competition between the [Soviet Union](#) (USSR) and the [United States](#) (US) for alleged spaceflight supremacy, appears to have been political cover for the race to build the two respective space stations (i.e., Death Stars). In other words, Americans built one Death Star while Russia built the other. That is admittedly why the [Mir and Salyut space stations](#) make up a considerable part of the [International Space Station](#) (ISS). Consequently, the logo of the [Salyut Programme](#) and the [insignia of the Mir space station](#) depict the outline of the Death Star. Considering the long [list of space stations](#) built by various countries over the last few decades, it's highly likely that they are individual parts which collectively make up the two Death Stars today. Lastly, it appears that the Death Stars are solar-powered in nature, a notion based on the work of German physicist [Hermann Oberth](#) (1894–1989) who developed plans for a space station orbiting Earth at a height of

8,200 kilometers (5,100 miles). Oberth's space station featured a 100 meter-wide concave mirror called a "[Sun gun](#)" which utilized the Sun's energy, albeit in the form of a weapon. Coincidentally, the [Death Star](#) in [Star Wars](#) has a concave design and the latest Star Wars film entitled "[Star Wars: The Force Awakens](#)" (2015) features a new Death Star-like planet entitled "[Starkiller Base](#)" which utilizes energy from the Sun. Shocking coincidences to say the very least

XI. EMERGENCE OF THE FIFTH WORLD:

11.1: The Black Sun & Fifth World

The End of the [Maya Calendar](#) on April 28, 2017, will evidently begat the [Fifth World](#) as depicted in the [Popol Vuh](#) which contains the [Maya Creation Myth](#). The central theme of the myth holds that there were four other cycles of creation and destruction that preceded the Fifth World. According to Aztec mythology, the present world is a product of four cycles of birth, death, and reincarnation. When each World is destroyed it is reborn through the sacrifice of a god which creates a new Sun and a new world. In short, after the fourth Sun is destroyed, the gods will gather to choose a god who will become the new Sun. Interestingly, the myth states that the Sun will remain motionless in the sky, burning the ground below. However, after a sacrifice, the Sun will begin to move through the sky, energizing the Earth instead of burning it. This appears to be a veiled reference to [Ceres](#) (i.e., the [Rings of Saturn](#)) which will trigger cataclysmic events on Earth due to its electrically infused power as a result of [Syzygy](#) (i.e., when two planets are "yoked together"). The Hopi believe we are currently living in the Fourth World, but are on the threshold of the Fifth. In each of the previous worlds, humanity was destroyed by destructive practices and wars, evils which will not be inherent to the Fifth World. The Fifth World is also referred to as the "[Legend of Five Suns](#)" which states that the [Black Tezcatlipoca](#) was chosen as the new Sun but only managed to become half a Sun or a less than spectacular moon, another apparent reference to [Ceres](#) (i.e., the [Rings of Saturn](#)) (i.e., the Black Sun). The arrival of a mysterious black planet is also found within [Mesoamerican mythology](#) as the [Black Sun](#) which has many mystical meanings. The [Aztecs](#) associated the passage of the Black Sun with the image of a butterfly, an archetypal symbol of the transcendent soul, transformation and mystical rebirth. This is likely because the arrival of [Ceres](#) (i.e., the Black Sun) will bring about the emergence of the Fifth World. The frightening Earth goddess [Itzpapalotl](#), who is known as the "Obsidian Butterfly", devours the people during the solar eclipses which she herself causes. This appears to be a reference to the "cleansing" effect that [Ceres](#) (i.e., the [Rings of Saturn](#)) will have upon the Earth. Consequently, the [Black Sun became a symbol of esoteric and occult significance](#) during the [Nazi era](#) in Germany. Lastly, [black dwarfs](#) are referred to as Black Suns and [Ceres](#) just happens to be a black dwarf planet. A coincidence? Not a chance.

XII. HARMONIC CONVERGENCE:

12.1: Harmonic Convergence

It is imperative to note that the impending [Three Days of Darkness](#) and the 25-days of recreation should not be viewed as the [End of the World](#) but rather as the End of the World as we know it. Due to an unprecedented rise in global consciousness, a new age of peace and love will follow the Apocalypse. As [originally](#) depicted in the Truther.org report from January 25, 2016, entitled "[Planetary Alignment, Harmonic Convergence, World Peace and the Coming Age of Aquarius](#)", evidence now suggests that Earth is about to experience a rare celestial event known as [Harmonic Convergence](#). Although this phenomenon allegedly occurred back on [August 16-17, 1987](#), its inherent side-effect of World Peace never transpired in reality. Consequently, it now appears that the year of 2017 is when the esoteric prophecy known as [Harmonic Convergence](#) will finally commence, bringing about the long-awaited [Age of Aquarius](#) (i.e., the [Messianic Age](#)). Harmonic Convergence will reportedly correspond with a "[great shift in the Earth's energy from warlike to peaceful](#)" and usher in a period of Earth's "cleansing" whereby many of the planet's "false structures of separation" (e.g., banking, government, religion, etc.) will simultaneously collapse, forever. The notion that "false structures of separation" are about to collapse is corroborated by the fact that [CIA Headquarters beneath Lake Geneva](#) in Switzerland has now been exposed for the first time in history. Consequently, Harmonic Convergence or not, the CIA which controls these false structures is ultimately doomed. Harmonic Convergence will also bring about the so-called "End of History" and the beginning of a new 5,125-year cycle (i.e., the [Fifth World](#)) as prophesized by the Maya. Evils of the modern world (e.g., assassinations, capitalism, fascism, materialism, poverty, slavery, terrorism, torture, war, etc.) will finally cease with the birth of the Fifth World. In astronomy, planetary alignment is known as [Syzygy](#), meaning "yoked together". Considering that a Sun–Earth–Moon-based syzygy can allegedly trigger [moonquakes](#), the arrival of [Ceres](#) (i.e., the [Rings of Saturn](#)) will no doubt have a major physical and/or spiritual effect on Earth. In "[The Avatar](#)" series, Harmonic Convergence is known as a "supernatural phenomenon that [occurs once every ten thousand years](#). When the planets align, spiritual energy is greatly amplified, causing the spirit portals at the North and South Poles to merge, while an aura of spirit energy envelops the Earth". Although "[The Avatar](#)" series is fictional or fraudulent in nature, so too was the timing of the song "[The Age of Aquarius](#)" (47-years too early), the purported Harmonic Convergence date of [August 16-17, 1987](#) (28-years too early), and the [Maya Calendar](#) end-date of [December 21, 2012](#) (4-years too early). Consequently, it can be deduced that there has been a premeditative effort to deceive humanity in respect to the true date of Harmonic Convergence. That is to say that if the Age of Aquarius is really upon us, we will only know it via celestial-based events (e.g., blood moons, lunar eclipses, planetary alignment, planetary retrograde, solar eclipses, etc.), not via the European Space Agency or NASA. Astrologers believe that planetary alignment will affect all of mankind, namely by "influencing the rise and fall of civilizations or cultural tendencies". Consequently, the [Greco-Roman Empire in Greenland](#) has good reason to hide the true date of [Harmonic Convergence](#) from humanity as its very survival depends on it. According to astrologer [Vera Reid](#), the [Age of Aquarius](#) is a time when mankind finally takes control of Earth and its own destiny. This will entail a revolution of enlightenment and truth, as well as the

expansion of [consciousness](#). As such, mankind will become the “Son of God” (i.e., the Messiah), saving himself. Lastly, Harmonic Convergence was foreshadowed in the song “[The Age of Aquarius](#)” (1969) which states that “When the moon is in the 7th house...And Jupiter aligns with Mars...Then Peace will guide the planets...And Love will steer the stars...No more falsehoods or derisions”. If ever life needed to imitate art, now is the time.

XIII. MESSIANIC AGE TO COME:

13.1: The Messianic Age

After the [Messiah destroys the Roman Empire](#) and its [Anti-Christ](#) which has now been identified as [Barack Hussein Obama II](#), the world will finally enter the [Messianic Age](#) (i.e., the [World to Come](#)), otherwise known as the [Age of Aquarius](#). In short, the Messianic Age is an era of global Peace that is free of strife and conducive to the knowledge of the Creator. All religions will subsequently cease and the world will collectively worship the one and only Creator. The Messiah will also inspire all human beings to be one family and create a civilization that is based on sharing and cooperation. The Holy Bible describes this global shift of consciousness in [Isaiah 2:4](#) which states that “...they shall beat their swords into plowshares, and their spears into pruninghooks: nation shall not lift up sword against nation, neither shall they learn war any more”. This age of peace is also prophesized in [Zoroastrianism](#) which [states that](#) “...there will come a time when humanity will become like the [Amesha Spentas](#), living without food, without hunger or thirst, and without weapons (or possibility of bodily injury). The material substance of the bodies will be so light as to cast no shadow. All humanity will speak a single language and belong to a single nation without borders. All will share a single purpose and goal, joining with the divine for a perpetual exaltation of God’s glory”. The Jewish philosopher [Maimonides](#) (1135-1204) described the Messianic Age in the [Mishneh Torah](#), Laws of Kings 12:5, stating that “...there will be no hunger or war, no jealousy or rivalry. For the good will be plentiful, and all delicacies available as dust. The entire occupation of the world will be only to know God... the people Israel will be of great wisdom; they will perceive the esoteric truths and comprehend their Creator’s wisdom as is the capacity of man. As it is written [in Isaiah 11:9]: ‘For the earth shall be filled with the knowledge of God, as the waters cover the sea’”. The Jewish [Kabbalah](#) also states that the Messiah (i.e., [Messiah ben David](#)) will usher in a period of freedom and peace. According to [Theosophical](#) literature, the [Maitreya](#) (i.e., the Messiah) will make the basic needs of human beings (e.g., food, clothing, education, housing, medical care, etc.) a universal right. Under the Maitreya’s inspiration, humanity itself will make the required changes to create a sensible and more just world for all living beings. The head of the [Bahá’í Faith](#), Shoghi Effendi, described the Messianic Age as “The Most Great Peace...a peace that must inevitably follow as the practical consequence of the spiritualization of the world and the fusion of all its races, creeds, classes and nations...”. Lastly, in [Hinduism](#), the Messiah is depicted as a new incarnation of the avatar (i.e., the [Kalki Avatar](#)) who will fight the apocalyptic snake and achieve the final victory over Evil on Earth. He will renew humanity and enable people to lead pure and honorable lives.
