EL MAYA APOCALYPESIS: MAYA CALENDAR TO END ON NOVEMBER 19, 2017 (11/19), CHRISTMAS DAY WITHIN SOLAR CALENDAR—Arrival of Ceres (i.e., Nibiru, Planet X, Rings of Saturn, etc.), Global Solar Eclipse, Activation of Earth's Magnetosphere & Global Aurora Borealis, 42-Day Apocalypse Featuring Transcendent Re-Creation of Earth & Emergence of New World Expected—CIA Headquarters in Geneva, Switzerland Will Predictably Order Every Media Outlet on Earth to Claim Alien Invasion as Directed Under NASA’s Top Secret 'Project Blue
'Extraordinary claims require extraordinary evidence'—Carl Sagan

10 REASONS WHY THE MAYA CALENDAR ENDS IN 2017:

I. The Maya Calendar did not end on December 21, 2012—Will end at a future date. This date has now been identified as Sunday, November 19, 2017.

II. There have been a total of 17 eclipses since April 15, 2014 (i.e., Day Zero)—8 Lunar and 9 Solar. These Eclipses are signs in the Heavens that the Apocalypse is imminent.

III. Planetary Alignment transpired for 31-days starting on January 20, 2016, and ending on February 20, 2016, evidently a once in a 3,600-year event. The Mayans intimately linked Planetary Alignment with the end of the Maya Calendar which is inherently astrological in nature.

IV. NASA has repeatedly lied, denied and tried to cover-up the existence of Planetary Alignment by repeatedly stating there would be no Planetary Alignments for 'decades' on either side of December 21, 2012. NASA trying to hide Planetary Alignment confirms, albeit in a de facto manner, that Planetary Alignment is a transcendent event in time.

V. Cicero and Plato referred to 2016 as the 'Great Year' and 'Perfect Year' when the planets finally align which is exactly what happened from January 20, 2016, until February 20, 2016.

VI. 5-Planetary Retrograde occurred on April 28, 2016, evidently a once in a 3,600-year event. Planetary Retrograde is when the planets begin to circle downward and backwards.

VII. The Blood Moon Prophecy in respect to the End of Days was fulfilled on September 27, 2015. Although not part of the original prophecy, the first-ever Blood Sun of our age transpired on October 16, 2017, signalling that the Apocalypse is nye.

VIII. The opening of the 7th Seal (i.e., the 7th Eclipse) as foretold in the Book of Revelation within the Holy Bible transpired on March 9, 2016. According to Revelations 8:1, after the 7th Seal is broken, humanity has '...half an hour' left before the End of Days (i.e., the Apocalypse).

IX. The Apocalypse, which is referenced in scores of religions (e.g., Christianity, Hinduism, Judaism, etc.) and mythologies (e.g., Greek, Mayan, Native American, Norse, Roman, etc.), all share one thing in common: The Apocalypse, or the so-called End of the World, is always preceded by a wave of never-before-seen Cosmic events which commenced with a Blood Moon on April 15, 2014.

X. Knowing that the Apocalypse is imminent, the elite of the Greco-Roman Empire, which have ruled the World for thousands of years, evacuated Earth for the safety of the ISS (International Space Station) on May 25, 2016, which coincidentally looks eerily similar to the Death Star from Star Wars.

WARNING: THE POWER GRID (AND THEREFORE THE INTERNET) WILL LIKELY COLLAPSE AT SOME POINT PRIOR TO THE APOCALYPSE ON NOVEMBER 19, 2017. PLEASE DOWNLOAD A PDF COPY OF THIS REPORT AND PRINT IT OUT TO SHARE WITH FAMILY & FRIEND WHEN BABYLON STARTS TO FALL.

AUTHOR'S NOTE: Since Planetary Alignment commenced on January 20, 2016, I have made numerous erroneous calculations in respect to the End of the Maya Calendar and the start date of the Apocalypse. As the great Wayne Gretzsky once stated, 'You miss 100% of the shots you don't take'. To err is human and my mis-calculations are further proof that despite being the so-called Messiah, I am just a mere human. That being said, I am now 99.999% sure that November 19, 2017, is in-fact the date of the Apocalypse which I and the World have been anxiously waiting for.
GERMANY, Undisclosed Location — Based on breaking news, cosmic events, numerology and symbology, the Maya Calendar will end on Sunday, November 19, 2017, roughly 21-months after Planetary Alignment commenced as foretold by the ancient Mayans of South America. This is the Apocalypse, Judgment Day and the End Time which has been prophesized for centuries. But have no fear, the Messianic Age is soon here. In short, the Three Days of Darkness prophecy is expected to commence within 24-hours of Sunday, November 19, 2017, after which the Earth will suffer multiple days of recreation, at the hands of Ceres (i.e., Nibiru/Rings of Saturn). The prolonged Solar Eclipse will initiate the long-awaited collapse of the Babylonian System, triggering Harmonic Convergence and the birth of the Fifth World some 42-days later January 1, 2018.

According to Dr. John B. Carlson, Director of the University of Maryland Center for Archaeoastronomy, ‘The Maya Calendar did not end on December 21, 2012, and there were no Mayan prophecies foretelling the end of the World on that date’. That is to say that the Maya Calendar is ongoing and will end at a future date which has now been identified as Sunday, November 19, 2017.

This notion was corroborated by an Atlantic Magazine report from May 10, 2012, entitled 'New Mayan Calendar Discovered That Doesn't End in 2012' which stated that archeologists have unearthed what they say is the oldest known version of the Mayan calendar which doesn't 'end' with the Earth's destruction in 2012.

EXTRA! EXTRA! MESSIAH ALIVE IN GERMANY—28 REASONS WHY WHISTLEBLOWER JOURNALIST DAVID CHASE TAYLOR OF TRUTHER.ORG IS THE SO-CALLED MESSIAH

This notion is corroborated by the fact that the Maya Calendar prophesized the end of the Fourth World and the beginning of the Fifth World which obviously did not transpire on December 21, 2012, which was erroneously regarded as the end-date of a 3,600-year-long cycle in the Mesoamerican Long Count calendar. Needless to say, the entire December 21, 2012, narrative was a Hollywood-induced hoax designed by the CIA to muddy the waters in respect to the true end-date of the Maya Calendar.

Since no transformative cosmic events transpired on or around December 21, 2012, it can be deduced that they will occur at a future date as foretold by the Mayans. Since the Maya Calendar is inherently astrological in nature, it stands to reason that it will end with a series of astrological events, namely the arrival of what psychedelic philosopher Terence McKenna labeled the 'Transcendental Object at the End of Time' (see below).

Although the Maya Calendar allegedly ended on December 21, 2012, there were no tetrad of remarkable Blood Moons (Lunar Eclipses), no Planetary Alignment, no Planetary Retrograde, and no series of Solar Eclipses or Blood Sun preceding it. Despite the Hollywood hype surrounding December 21, 2012, there was no cosmic climax.

This however is not the case with the year of 2016 and 2017. The 9 Solar Eclipses, 8 Lunar Eclipses, the Planetary Alignment of Jupiter, Mars, Mercury, Saturn and Venus from January 20, 2016, until February 20, 2016, the retrograde status of 5 planets on April 28, 2016, and the Blood Sun of October 16, 2017, confirm that the end of the Maya Calendar is nye.
That is evidently why 2016 is known as the Great Year in astronomy which the iconic Greek philosopher Plato (c. 427–347 BC) referred to as the 'perfect year' in which the celestial bodies (planets) and the diurnal rotation of the fixed stars (circle of the Same) return to their original positions. This is evidently what transpired during the 31-day Planetary Alignment from January 20, 2016, until February 20, 2016.

The Roman philosopher Cicero (106–43 BC) wrote in De Natura Deorum (45 BC) that the Great Year will be completed '...when the Sun, Moon and five planets having all finished their courses have returned to the same positions relative to one another' which is evidently what transpired during Planetary Alignment.

Despite Planetary Alignment taking place in 2016, Donald Yeomans of NASA's 'Near Earth Object Program' stated in 2009 that '...there won't be any planetary alignments for a couple of decades on either side of 2012'. Considering that NASA has calculated every Solar and Lunar Eclipse until the year 3,000 AD down to the very second, their blatant denial of Planetary Alignment in 2016 can only be construed as premeditated deception.

The cover-up of Planetary Alignment was further perpetuated by a NASA report from December 22, 2012, entitled 'Beyond 2012: Why the World Didn't End' which erroneously stated that 'There are no planetary alignments in the next few decades'. Again, NASA blatantly lied to the public by stating that Planetary Alignment would not transpire anywhere near 2012 when it in-fact it commenced roughly 37-months later on January 20, 2016.

This is evidently why CIA disinformation operative John Major Jenkins went on a global speaking tour to sell the World on the fraudulent notion that the Mayans intimately linked 'solar and galactic plane alignment' with the end of the Maya Calendar. Needless to say, Jenkins never mentioned Planetary Alignment in 2016 for his job (albeit unknowingly) was to deceive the masses in respect to the true end-date of the Maya Calendar on Sunday, November 19, 2017.

To date, NASA has not published a single report online or elsewhere confirming or denying Planetary Alignment in 2016. For lack of a better analogy, it would be as if Jesus returned to Earth and the Pope said nothing. NASA did however publish a propaganda report on June 3, 2013, entitled 'Rare Stellar Alignment Offers Opportunity To Hunt For Planets' which highlighted Planetary Alignment on Proxima Centauri in the year of 2014 and 2016.

The notion that the end of the Maya Calendar is imminent is corroborated by the fact that: a) there have been 10 Eclipses since April 15, 2014; b) the so-called Blood Moon Prophecy was fulfilled on September 27, 2015; c) the opening of the 7th Seal in the Bible (i.e., the 7th eclipse) transpired on March 9, 2016; a Blood Sun transpired on October 16, 2017, and e) the elite of the Greco-Roman Empire evidently evacuated Earth for the safety of the ISS (International Space Station) on May 25, 2016.

Although Matthew 24:26 in the Holy Bible states in respect to the End of Days that the '...day and hour knoweth no man, no, not the angels of heaven, but my Father only', the Maya Calendar will evidently end on Sunday, November 19, 2017, with a 42-day Apocalypse, which is curiously defined as 'the uncovering' and 'a vision of heavenly secrets', commencing shortly thereafter.
COSMIC TIMELINE (APRIL 15, 2014-JANUARY 1, 2018):

1. April 15, 2014: 1st Blood Moon Eclipse (Lunar Eclipse 1/9)
3. October 8, 2014: 2nd Blood Moon Eclipse (Lunar Eclipse 2/9)
7. September 13, 2015: Solar Eclipse (Solar Eclipse 4/8)
9. September 27, 2015: Fulfillment of Blood Moon Prophecy
10. January 20, 2016: Planetary Alignment Begins
11. January 25, 2016: Alleged Discovery of Planet 9 (i.e., Nibiru/Rings of Saturn)
12. February 20, 2016: Planetary Alignment Ends
14. September 1, 2016: Opening of Biblical 7th Seal
16. April 23, 2016: Earth's Magnetic Field Allegedly Collapses
17. April 28, 2016: 5-Planetary Retrograde
19. August 18, 2016: Lunar Eclipse (Lunar Eclipse 6/9)
20. September 16, 2016: Lunar Eclipse (Lunar Eclipse 7/9)
22. February 26, 2017: Solar Eclipse (Solar Eclipse 7/8)
25. October 16, 2017: Blood Sun (Blood Sun 1/1)
November 26, 2017: End Date of Maya Calendar

November 27, 2017: Start Date of Apocalypse

December 28, 2017: End Date of Apocalypse

January 29, 2018: Start Date of New Age (i.e., Age of Aquarious)

Exactly what will transpire when the Maya Calendar ends at 12:00 AM (Greenwich Time) on Sunday, November 19, 2017, is not known, but the eschatological prophecies found within the Holy Bible, Mayan glyphs and hieroglyphs, and Native American lore suggest that the Three Days of Darkness prophecy will commence, likely resulting in a prolonged Solar Eclipse that will shock the Earth to its very core.

In short, the arrival of one or more planetary bodies are expected to appear in the sky above Earth on Sunday, November 19, 2017, namely the so-called dwarf planet entitled Ceres (i.e., Nibiru/Rings of Saturn) which will evidently envelope Earth with her 5 Rings of Fire (i.e., Black Holes), re-creating Earth as only the one and only Creator can.

The notion that a rogue planet is now headed towards Earth was foreshadowed back on January 25, 2016, when it was reported that Planet 9 was discovered in our Solar System. Considering that NASA's live feed went down on November 18, 2016 (exactly 1-year prior to the Apocalypse on November 19, 2017), NASA astronauts are likely viewing a pre-recorded video feed of Space, unable to see the incoming Ceres (i.e., Nibiru/Rings of Saturn).

This notion was confirmed, albeit in a de facto manner, by NASA which stated in respect to the live feed cut that '...the High Definition Earth Viewing experiment is either switching cameras, or we are experiencing a temporary loss of signal with the International Space Station'. Although NASA admitted they were 'switching cameras', they naturally never mention that it was to install a pre-recorded video feed of Space.

What the impending re-creation period of Earth will entail is obviously not known, but the Solar Eclipse on September 1, 2016, was dubbed a 'Ring of Fire Eclipse' (see below), and the Solar Eclipse on February 26, 2017, was also dubbed a 'Ring of Fire Eclipse'. This semantical foreshadowing suggests that the Earth is about to suffer multiple Rings of Fire courtesy of the Rings of Saturn.

The notion that cosmic events will trigger a collapse of the Babylonian System here on Earth was foreshadowed back on April 23, 2016, when it was erroneously reported that Earth's magnetic field collapsed. Although the claim was later debunked, the notion of a cosmic-induced collapse was made nonetheless. Said collapse will evidently be triggered by a global Solar Eclipse on Sunday, November 19, 2017.

Once the Three Days of Darkness prophecy commences with a Solar Eclipse on November 19, 2017, the European Space Agency and NASA will predictably claim that the prolonged Solar Eclipse is a result of a foreign entity or planetary body within our Solar System (e.g., Aliens, Nibiru, Planet 9, Planet X, etc.), not the arrival of the dwarf planet entitled Ceres (i.e., the Rings of Saturn).

Despite what the European Space Agency and NASA say once one or more planetary bodies appear over Earth, the impending darkness is a natural phenomenon. That is to say that when a foreign planetary body or bodies pass over Earth it will be a the result of Ceres (i.e., the Rings of Saturn), not a foreign object or entity (e.g., Aliens, Nibiru, Planet 9, Planet X, etc.).
As foreshadowed in the Hollywood propaganda film entitled '2012' (2009), the end of the Maya Calendar and the subsequent arrival of a planetary body over Earth will trigger the long-awaited 'cleansing' of Earth, including but not limited to: activation of the Earth's magnetosphere between Australia and Greenland likely resulting in a global Aurora Borealis, earthquakes, hail storms, lightning storms, mass flooding, thunder storms, tsunamis and volcanic eruptions.

Regardless of what happens when the Maya Calendar finally ends on Sunday, November 19, 2017, it is imperative to note that the good people of Earth who are vibrating on a frequency of Peace and Love have nothing to worry about. As the great Mahatma Gandhi once said, 'There is nothing that wastes the body like worry, and one who has any Faith in God should be ashamed to worry about anything whatsoever’. In short, those who can be saved (spiritually speaking), will be saved.

That is precisely why the astrological symbol for Ceres contains both a sickle and a cross for Ceres will evidently cut down the Evil people of Earth as it passes over us. The release of poisonous gases is also a realistic possibility for Earth may come into contact with the atmosphere of Saturn which is coincidentally known as one of the Gas Giants.

The long-awaited end of the Maya Calendar will evidently trigger Harmonic Convergence, a 'great shift in the Earth’s energy from warlike to peaceful', ushering in a period of 'cleansing' whereby all of the Earth’s 'false structures of separation' (e.g., banking, government, religion, etc.) will simultaneously collapse, forever.

Harmonic Convergence will bring about the so-called 'End of History' (i.e., the end of the Greco-Roman Babylon System) and the beginning of a new 3,600-year cycle (i.e., the Messianic Age). Evils of the modern World (e.g., capitalism, fascism, materialism, poverty, slavery, terrorism, torture, war, etc.) will finally cease with the birth of the Fifth World.

14. MESSIANIC AGE TO COME
1. TRANCENDANT DATES IN TIME:

1.1: November 19, 2017 (End of Maya Calendar)
Based on cosmic, numerological and symbolical evidence, the Maya Calendar will end on Sunday, November 19, 2017 (i.e., 11/19). Because the number '11' equates to the letter 'K' in the English alphabet and the number '19' to the letter 'S', the number '11/19' equate to 'KS' as in 'Kiss' which is evidently where the term and subsequent movie entitled 'The Long Kiss Goodnight' (1996) was derived from. The tradition of a giving a goodnight or goodbye kiss likely originated from this numerology. The CIA-sponsored attacks of September 11, 2001 (i.e., 9/11), were designed in-part to foreshadow terrifying events on a future date bearing the number '9/11' or '11/19' (9/11 is written and referred to as 11/9 in Europe). That is to say that the controlled demolition of the Twin Towers on 9/11, which are representative of the Greco-Roman Pillars of Hercules (i.e., the Columnas Plus Ultra), was symbolic foreshadowing of the collapse of the Greco-Roman Empire on '11/19' which has ruled Earth for thousands of years to the detriment of all living things. Aside from the fact that the 'The Lord of the Rings' series is a titular tribute to the incoming Rings of Saturn, the film entitled 'The Lord of the Rings: The Two Towers' (2002), is a veiled tribute to the fall of the Twin Towers in New York City which foreshadowed the end of the Greco-Roman Empire some 5,912-days later on Sunday, November 19, 2017. The Hollywood film entitled 'World War Z' (2015) is also a veiled tribute to the date of November 19th in that the 19th letter in the Roman Score (i.e., the original alphabet) is a 'Z' symbol. That is because the collapse of the Babylonian System on November 19th or November Z will throw the World into utter madness, chaos and civil war.
Based on cosmic, numerological and symbolical evidence, the Maya Calendar will end on Sunday, December 25th within the Solar Calendar (i.e., the 25th day of the 12th month within the 13-month Solar Calendar which consists of 28-days starting on December 22nd, the day after the Winter Solstice on December 21st). The Christian holiday known as Christmas is a veiled tribute to the end of the Maya Calendar and the Apocalypse on December 25th within the Solar Calendar which equates to Sunday, November 19, 2017, within the Gregorian Calendar. In the English language, the term 'Christmas' is pronounced 'Criss Miss' as in 'Cross Miss' for the Greco-Roman Empire is desperately hoping that they 'miss' the destructive force of Saturn's 'cross' over planet Earth which is evidently why they evacuated the planet for the safety of the International Space Station (ISS) on May 25, 2016. The so-called Star in the East as depicted within the Holy Bible in respect to the birth of Jesus is a veiled reference to Saturn which is why the resurrection of Jesus (i.e., ISIS) is celebrated in Christianity as 'Easter' or 'East-Star'. The number '12/25' found within the date of December 25th symbolically equates to 'ISSS' or 'ISS' as in ISIS which is the most sacred god of the Greco-Romas. That is why Jesus is known as the Savior and why the International Space Station is entitled ISS. The Star in the East is generally depicted in the form of a cross for Saturn is slated to cross over Earth from the East, possibly starting in South Africa (which lies true East) whose flag coincidentally features a 'Y' symbol. The letter 'Y' is the 25th letter in the English alphabet which symbolically equates to 'SS' as in 'ISIS' which again is the official name of Jesus, the Savoir of Man-kind. South Africa is also home to the Cape of Good Hope which is evidently another veiled tribute to the hope of the Greco-Roman Empire that they are not destroyed during the Apocalypse. The Christian holiday known as Easter (S+T+R),
celebrates the resurrection of Jesus from the dead for the Greco-Roman Empire is hoping that ISIS (i.e., Jesus) will save them from the Apocalypse and that they will be resurrected. Consequently, the aforementioned events generally associated with the Apocalypse, the End Time and the Three Days of Darkness prophecy will likely be the result of centrifugal and/or gravitational forces caused by planetary Syzygy (i.e., when planetary bodies are 'yoked together'), likely causing a Polar Shift of planet Earth and/or a sudden change in her vibrational frequency. The Christian holiday known as Christmas is celebrated in honor of Jesus (i.e., the Savior) whose birth was announced by a Star in the East, namely Saturn. The term Saturn (S+T+R+N) and Eastern (S+T+R+N) are consonantly speaking the same for Saturn is evidently slated to pass over Earth from the East. The term 'Christmas' is pronounced 'Criss Miss' or 'Cross Miss' for the Greco-Roman holiis hoping to 'miss' the destructive force of Saturn's 'cross' which is evidently why they have left Earth for the safety of the International Space Station (ISS).

1.3: December 31, 2017 (End Date of Apocalypse)
Based on cosmic, numerological and symbolical evidence, it appears that the Apocalypse will end on Sunday, December 31, 2017, the 365th day within the Gregorian Calendar (366th in Leap Years) and the 10th day of the 1st month within the Solar Calendar (i.e., the 10th day of the 1st month within the 13-month Solar Calendar which consists of 28-days which starts on December 22nd, the day after the Winter Solstice on December 21st). Aside from being New Year's Eve, this particular Sunday is the last day of the week, month, year and age. The time period between the start of Planetary Alignment on January 20, 2016, and the end-date of the Apocalypse on December 31, 2017, is
exactly 711-days which may be why there is an international chain of convenience stores entitled 7-Eleven, an apparent titular tribute to this most epic and transcendent time period of our age.

1.4: January 1, 2018 (Start Date of New Age)

Based on cosmic, numerological and symbolical evidence, the so-called Gokden Age or Age of Aquarius will start on Monday, January 1, 2018, the 1st day within the Gregorian Calendar (1st in Leap Years) and the 11th day of the 1st month within the Solar Calendar (i.e., the 11th day of the 1st month within the 13-month Solar Calendar which consists of 28-days which starts on December 22nd, the day after the Winter Solstice on December 21st). This date is widely known as New Year's Day for it marks the first day of a new week, month, year and age. The date of January 11 in the Solar Calendar numerically equates to '1/11' or '111' which equates to 'III', 'AAA', 'ΛΛΛ', 'CCC' as well as 'KKK'. The letters/numbers 'III' is likely where the term Trinity (tri-nite) in Christianity was derived from for its when the Father, Son and Holy Ghost become one. In other words, it's when the Greco-Roman Empire is hoping to celebrate their victory over the Apocalypse, hence the references to Jesus (see below). The lyrics to the U2 song entitled 'New Year'S Day' () appear to be a veiled reference to the hopes and dreams of the Greco-Roman Empire that nothing changes on New Year's Day, the start date of the new age. '...All is quiet on New Year's Day...Nothing changes on New Year's Day...And we can break through...Though torn in two...I, I will begin again...I will begin again...And so we're told this is the golden age...Nothing changes...On New Year's Day'. The date of January 1, 2018, equates to January 11th in the Solar Calendar which numerically equates to '1/11' or
'111' which grammaticaly, numerically and/or symbolically equates to 'III', 'AAA', 'ΛΛΛ', 'CCC' as well as 'KKK'. These various symbols are coincidentally found in the acronyn of the 'C.I.A.' whose secret subterranean headquarters lies beneath Lake Geneva in Switzerland. That is because the CIA in Switzerland was tasked with the construction of the ISS which was designed to enable the Greco-Romans to survive the 42-day Apocalpyse (see below) in Space. Firstly, the 'C' in 'CIA' was derived from the Chevron symbol (i.e., 'Λ'), the first-ever symbol of the Greco-Roman Empire which is why the letter 'Α' is the first letter in the modern English alphabet and why the number '1' is written as an 'Λ' symbol in Germany. Secondly, the letter 'Ι' in 'CIA' doubles as the number '1' as evidenced in Roman Numerals. Thirdly, the letter 'Α' in 'CIA' numerically equates to the number '1' which is why the letter 'Α' is located in the first position within the modern English alphabet. The country code of Switzerland (i.e., 'CH') also numerically equates to '111'. Firstly, the letter 'C' in 'CH' was derived from the Chevron symbol (i.e., 'Λ') which was the first-ever symbol of the Greco-Roman Empire which is why the letter 'A' is located in the first position of the English alphabet and why the number '1' is written as an 'Λ' symbol in Germany. Secondly, the letter 'H' in 'CH'is found within the 11th position of the Roman Score (i.e., the original alphabet) for it is the comination of '1' and '1' or 'I' and 'I'. Consequently, 'CH' equates to '1-11', '111' or 'III'. The letters 'CH' numerically equate to '38' (the addition of '19+19' or 'S+S') which is consonantly speaking the same as 'SS' or 'ISIS', the secret code-name of the aforementioned CIA Headquarters. The Age of Aquarius (i.e., the Messianic Age) has been touted as the coming age which starts on the 11th day of the 1st month. The term 'Aquarius' (Q/K+R+S) is consonantly speaking the same as the term 'Cross' (C/K+R+S) due to the fact that the letter 'Q' doubles as both a 'C' and 'K' within the English language. Consequently, references to the Age of Aquarius are veiled references to Ceres (i.e., the Rings of Saturn) which are expected to cross over Earth. Lastly, the number '666' (i.e., the 'Number of the Beast') is an upside down 999 which symbolically equates to 'III' because the letter 'I' is the 9th letter within the English alphabet. The letters/numbers 'III' equates to '111' in Roman Numerals. The logo of CERN (entrance to CIA Headquarters) coincidentally depicts the number '666' which is synonymous with the Beast. This is no coincidence for CERN has been tasked with the development of the International Space Station (i.e., the Death Star) which was specifically built enable the elite of the Greco-Roman Empire to survive the Apocalypse. In the Textus Receptus manuscripts of the New Testament, chapter 13:17–18 of the Book of Revelation cryptically asserts that '666' is 'man's number' or 'the number of a man'. That is because the Greco-Romans refer to themselves as 'Man's while those in the Underworld are referred to as Hu-mans for the term 'Hue' means colored. Therefore, if '666' or '999' (i.e., '111' or January 11th in the Solar Calendar) is ultimately witnessed by Man-kind, they will in essence have eternal life by escaping the wrath of Saturn and surviving the Apocalypse.
2. APOCALYPSE NOW:

2.1: The 42-Day Apocalypse

The term Apocalypse refers to eschatology, prophetic revelations, the so-called End Time, and the End of the World in general. The 'AP' in the term 'Apocalypse' numerically equates to '116' (i.e., A=1 and P=16) which doubles as '119' or '11/1' the date of the actual Apocalypse on 11/9 (i.e., November 19th) simply because the number '9' equates to the letter 'l' in the English alphabet. Aside from the letter 'P', the term 'Apocalypse' (P+C/K+L+P+S) is consonantly speaking the same as 'Eclipse' (C/K+L+P+S) and 'Collapse' (C/K+L+P+S) because the impending Apocalypse will evidently commence with a Solar Eclipse that will plunge the World into total darkness, chaos and anarchy. Said Eclipse will give way to the arrival of Ceres (i.e., the Rings of Saturn) on Sunday, November 19, 2017, whose Syzygy (i.e., when planetary bodies are 'yoked together') will evidently trigger cosmic re-creation which will finally bring about the long-awaited collapse of the Babylonian System. The letter 'P' in the English alphabet is representative of Pi (i.e., the number 'π'), the ratio of a circle's circumference to its diameter which is commonly approximated as 3.14159 although the number goes on to infinity. This is because the arrival of Ceres (i.e., the Rings of Saturn) evidently happens every 3,600-years, to infinity where the 360° off circle was evidently derived from. That is why 2016 is known as the Great Year in astronomy which the Greek philosopher Plato (c. 427–347 BC) referred to as the 'perfect year' in which the celestial bodies (planets) and the diurnal rotation of the fixed stars (circle of the Same) return to their original positions. Although Pi has been represented by the Greek letter 'π' since the mid-18th century, the 'P' symbol is found in the 8th position in the Roman Score because the number '8' was derived from the Solar and Lunar Analemma which goes on to infinity (i.e., it never stops). The letter 'π' it is an irrational number that cannot be expressed exactly as a fraction in that equivalently, its decimal representation never ends and never settles into a permanent repeating pattern. Acts 13:11 in the Holy Bible states, 'And now, behold, the hand of the Lord is upon thee, and thou shalt be blind, not seeing the Sun for a season...' because the Sun is slated
to disappear for 41-days in the season of Fall. The **Gregorian Calendar** was introduced by **Pope Gregory XIII** in October of 1582 to allegedly **stop the drift of the calendar with respect to the equinoxes and solstices**. In reality, the revolutionary change from the Solar Calendar to the Gregorian Calendar was evidently due to the discovery that the age would end on December 25th within the Solar Calendar which contains 13-months consisting of 28-days which starts on December 22nd, the day after the Winter Solstice on December 21st which was previously referred to as New Year’s Day. In short, 10-days were added to the Greorgian Calendar because the New Year as well as the new age begins 10-days after the Winter Solstice on January 1, 2018. The 42-day Apocalype was likely discovered when the Greco-Roman Empire conquered the Mayans of South America, hence the name of the Maya Calendar which ends on Sunday, November 19, 2017. Because 1,300-years were addered to the Gregorian Calendar since the discovery of the end of the Maya Calendar, the year of 2018 is actually the year of 718 (G+R). The consonants 'GR', which are repeated twice in the name of 'Gregorian' (G+R+G+R+N), numerically equates to '718' (G+R), an acronym for 'Greenland Rome' or 'Greexland Rome'. The consonant 'N' found at the end of Gregorion is an acronym for 'North' which equates to the X-symbol in the Roman Score (i.e., the original alphabet). That is because 'GR' or Greekland Rome planned to extreminate all of humanity prior to the end of the Gregorian Calendar. The year of '2018' or '20-18' numerically equates to 'TR' (the number '20' equates to the letter 'T' while the number '18' equates to the letter 'R') which can be written as 'tri', 'three' or '3' which equates to the letter 'C' as well as the **Chevron symbol** (i.e., 'Λ'), the first-ever symbol of the Greco-Roman Empire. This is likely why the International Space Station (i.e., the Death Star) features the geometry of the letter 'C in her design. The year of 2018 also numerically equates to 'BR', an acronym for Babylon, Rome (the number 2 equates to the letter 'B' while the number '18' equates to the letter 'R'), the first-ever capital of the Greco-Roman Empire.

![Black Sabbath - The End](image)

2.2: **End of the World Programming**

In order to program the masses for the so-called 'End of the World', the **heavy metal** band **Black Sabbath** started thier 'The End Tour' on January 20, 2016, the same date that Planetary Alignment commenced. The logo of The End Tour (see above photo) depicts a 'Great Ring of Fire' which is what the arrival of **Ceres** (i.e., the **Rings of Saturn**) will
evidently look like (see below). End of the World programming was depicted in a Fox News report from October 5, 2016, entitled ‘Ancient Mayan Codex Found to be Oldest Document from the Americas’ which revealed that the Grolier Codex, which consists of Mayan paintings and a calendar that charts the movement of Venus, is authentic in nature and dates back to the first half of the 13th century, making it the oldest surviving document from the Americas. Needless to say, timing of the report is highly suspect and was evidently disseminated in order to sell the notion that the Maya Calendar is real and will end at a future date. In what appears to be more End of the World foreshadowing, the Express published a report on September 30, 2016, entitled ‘Warning Black Moon Tonight: Astrological Event to Herald ‘End of Days’ and Second Coming’. Roughly 2-weeks prior on September 15, 2016, TIME published a report entitled ‘Giant Moon Balloon Rolls Through Traffic in China’ which highlighted a CIA publicity stunt in which an inflatable Moon was erected just prior to the arrival of Typhoon Meranti. Naturally, the storm broke the tethered Moon loose, invoking the notion of rogue planets just prior to the arrival of Ceres (i.e., the Rings of Saturn). In order to foreshadow that a great Eclipse is imminent, USA Today published a report on August 21, 2016, entitled ‘The ‘Great American Eclipse’ is a Year from Today’. In what appears to be a veiled warning to all of Europe that Earth-changing cosmic events are imminent, it was reported on August 21, 2016, that the German government instructed its citizens to begin storing food and water. The 69-page Doomsday report stated ‘prepare appropriately for a development that could threaten our existence and cannot be categorically ruled out in the future’. In order to further foreshadow that the End of the World is imminent, the Independent published a report on August 20, 2016, entitled ‘Doom 101: North Korean Students Taught to Prepare for the End World’. In order to psychologically prepare the world for the end of the Maya Calendar, the film entitled ‘It's Only the End of the World’ (2016) debuted at the 2016 Cannes Film Festival in France on May 19, 2016. Interestingly, the poster for the film depicts a man looking toward the Heavens with two hands covering his eyes, an apparent tribute to the impending arrival of Ceres (i.e., the Rings of Saturn). The notion that the so-called End of the World will transpire with roughly a year was confirmed by an Independent report from June 1, 2015, which claimed that the ‘End of mankind predicted by the Jehovah Witnesses could happen this year. The notion that the Maya Calendar will end at a later date was foreshadowed by a CIA-spawned report from December 23, 2014, entitled ‘The Mayan Calendar is Off By 3 1/2 Years!’. In short, the report claimed that the Maya Calendar ends on May 21, 2016, when employing the Mayan Haab Calendar. Considering the report’s math is erroneous in nature and the prophecy obviously failed to come to fruition, it can be deduced that the report was disseminated to muddy the waters in respect to future claims that the Maya Calendar will end years after the original hoax date of December 21, 2012. As detailed in the September 15, 2017, propanda report from Fox New entitled ‘Biblical Prophecy Claims the World will End on Sept. 23, Christian Numerologists Claim’, a so-called numerologist which shares my first name of David is disseminating disinformation in respect to the End of the Maya Calendar. After his failed September 23, 2017, prediction, David Meade published a new date for the End of the World as detailed in the October 15, 2017, propaganda report from The Sun entitled ‘THE END OF DAYS: Is the End of the World Today on October 15 and What is David Meade’s Planet X Conspiracy Theory?’ Obviously, Meade’s predictions, which were based on fraudulent evidence, naturally failed to come to fruition. The Blood Sun of October 16, 2017, also prompted scores of propaganda reports such as the October 16, 2016, report from the Express entitled ‘End is Nigh: Social Media Panic as Blood Red Sun Rises above UK in Terrifying Phenomenon’. In short, these reports were designed to both foreshadow the impending Apocalypse as well as serve as disinformation in respect to the true date of the Apocalypse on Sunday, November 19, 2017.
3. DECIPHERING MAYA CALENDAR SYMBOLOGY:

3.1: Deciphering Maya Symboology

When deciphering the symbology found within the Maya Calendar, it is clear that it is in-fact a Greco-Roman creation. Firstly, the Chevron symbol (i.e., the 'Ʌ' symbol or the letter 'A' minus the cross-bar) found atop the classical depiction of the Maya Calendar equates to the letters 'C' and 'K' within the Roman Score (i.e., the original alphabetic and numeric system of the Greco-Roman Empire) as well as the letter 'C' in the modern English alphabet. The 'Ʌ' symbol was the first-ever symbol, an acronym for Crete, the birthplace of the Greco-Roman Empire. The twisted 'X' symbol depicted within the Maya Calendar equates to the letter 'N' in the Roman Score where it is found in the 14th position. When combined, these two symbols in the Mayan Calendar grammatically spell 'C/K+N' or 'CN' which numerically speaking equate to 3/14 or 3.14 as in 'Pi', 'P', or 'π'. The letters 'C/K+N' are symbolic of Chania in Crete, the first and oldest city in the World, while the never-ending fraction that is 'Pi' is symbolic of the line or lineage of the Greeks which will go on forever should the Greco-Roman Empire survive the Apocalypse which starts on Sunday, November 19, 2017. That is why the 'Pi' symbol (i.e., 'π') is found within the Mayan Calander. The Asterix symbol (i.e., '*') or Chi symbol (i.e., 'Ж'), albeit turned 90°, is also found within the depiction of the Maya Calender. The Chi symbol is found in the 5th position within the Roman Score, an apparent tribute to the 5 Rings of Saturn which are slated to envelope Earth during the 42-day Apocalypse. Because the 'X' symbol was formerly the letter 'N' in the Roman Score, the term 'Asterix' (S+T+R+X/N) is consonantly speaking the same as Saturn (S+T+R+N). The Chi-like Asterix symbol is an apparent tribute to the 5 Rings of Saturn (see below) which the Earth is slated to pass through during the Apocalypse. The twisted 'X' found within the Maya Calendar doubles as a '+' symbol which, when superimposed with the 'O' symbol at the center of the Maya Calendar, forms the Earth symbol (i.e., '⊕'). The Earth symbol contains a '+' symbol and 'O' symbol which numerically equate to '4/15' as in April 15th (i.e., Day Zero), the official countdown date of the Apocalypse which commenced with a Lunar Eclipse on April 15, 2014, the first-ever Blood Moon in this age of 3,600-years.
ESOTERIC SYMBOLS WITHIN THE MAYA CALENDAR:

1. 'Λ' — Equates to the number '3' in the Roman Score and the letters 'C' and 'K' in the English alphabet
2. 'X' — Equates to the number '14' in the Roman Score and the letter 'N' in the English alphabet
3. 'π' — Equates to the number '8' and the letter 'P' in the Roman Score and the '3.14' (i.e., Pi) equation in mathematics. The Pi symbol also doubles as the Chai symbol which equates to life force.
4. 'Ж' — Equates to the number '5' and the 'CH' symbol in the Roman Score, and the letter 'H' (i.e., the 8th letter) in the English alphabet
5. '+' — Equates to the number '4' and the letter 'D' in the Roman Score and English alphabet
6. 'O' — Equates to the number '0' in the Roman Score and the letter 'O' in the English alphabet

3.2: Day Zero (April 15, 2014)
The recent wave of Cosmic activity (e.g., Blood Moons, Blood Suns, 9 Solar Eclipses, 8 Lunar Eclipses, Planetary Alignment, Planetary Retrograde, etc.), which is leading up to the Apocalypse on Sunday, November 19, 2017, commenced with a Lunar Eclipse on April 15, 2015 (i.e., 4/15), otherwise known as 'Day Zero'. When employing the Roman Score and English alphabet, the numbers '4/15' equate to '+/O' which when superimposed creates the Earth symbol (i.e., '⊕'). This is because the number 4 was formerly a '+' symbol in the Roman Score while the number '15' equates to the letter 'O' in the English alphabet. The '⊕' symbol is widely recognized today as the crosshairs (i.e., cross-hours) for Earth is now being targeted for a cross-over by Ceres (i.e., the Rings of Saturn). As of April 15, 2014, there were only 1,314-days (31,536-hours) left prior to the End of the Maya Calendar on Sunday, November 19, 2017. The number 1,314 contains the number 314 as in 3.14 which equates to Pi which is why the 'π' symbol is depicted in the Mayan Calendar. The number 1,314 numerically equates to 'MX' in the Roman Score while 314
equates to ‘CN’ in the English language which is likely why the Mayans were named 'MXCN' as in Mexicans. The aforementioned ‘ε’ symbol is coincidently found within the logo of the Zodiac Killer for the Zodiac, an area of the sky centered upon the ecliptic, will evidently give way to Ceres (i.e., the Rings of Saturn), killing billions of people on Earth and thereby becoming a serial killer. This notion is corroborated by the fact that in countless of paintings, Jesus is depicted with his head on the Earth symbol or Zodiac Cross, the Savior of the Greco-Roman Empire whom they hope will give them eternal life by enabling them to live through the crossing of Ceres (i.e., the Rings of Saturn). Lastly, Zero-Day (also known as Zero-Hour or O-day or Day Zero) is a computer-software vulnerability that is evidently a veiled reference to the last day that computers will work when the 1,314-day countdown concludes on Sunday, November 19, 2017.

3.3: The Transcendental Object at the End of Time
The great Terence McKenna saw the Universe as having a teleological attractor at the End of Time which increases interconnectedness and would eventually reach a singularity of infinite complexity (i.e., 'the transcendental object at the end of time'). In religion, transcendence refers to the aspect of a God's nature and power which is wholly independent of the material Universe, beyond all physical laws. In other words, whatever is going to happen on Earth when the transcendental object appears will be literally and figuratively-speaking out of this World. When describing this model of the Universe, McKenna stated that: 'The Universe is not being pushed from behind. The Universe is being pulled from the future toward a goal that is as inevitable as a marble reaching the bottom of a bowl when you release it up near the rim. If you do that, you know the marble will roll down the side of the bowl, down, down, down – until eventually it comes to rest at the lowest energy state, which is the bottom of the bowl. That's precisely my model of human history. I'm suggesting that the Universe is pulled toward a complex attractor that exists ahead of us in time, and that our ever-accelerating speed through the phenomenal world of connectivity and novelty is based on the fact that we are now very, very close to the attractor'. Although McKenna frequently referred to his theory as 'the transcendental object at the end of time', he evidently was unaware that the object he spoke of was an
actual object in Space, namely Ceres (i.e., the Rings of Saturn) which will evidently appear in the hours after the Mayan Calendar ends on Sunday, November 19, 2017. Needless to say, Mckenna would have eventually figured out all that pertains to the End of the Maya Calendar and the Apocalypse which is exactly why he was assassinated under the guise of a brain tumor on April 23, 2000. According to McKenna's final interpretation of the data and positioning of December 21, 2012 (i.e., the official hoax date of the alleged end of the Mayan Calendar) in his 'Approaching Timewave Zero' graph, the Earth would be in the unique position in time where maximum novelty would be experienced which he described as a 'concrescence', a 'tightening gyre' with everything flowing together. McKenna speculated that '...when the laws of physics are obviated, the Universe disappears, and what is left is the tightly bound plenum, the monad, able to express itself for itself, rather than only able to cast a shadow into physis as its reflection...It will be the entry of our species into 'hyperspace', but it will appear to be the end of physical laws, accompanied by the release of the mind into the imagination'.

4. CERES, NIBIRU & THE RINGS OF SATURN:

4.1: The Rings of Saturn
Exactly what will transpire when Ceres (i.e., the Rings of Saturn) appears over Earth on Sunday, November 19, 2017, is not known, but our planet will likely begin to pass through 5 Great Rings of Fire, possibly blue, green, red, white and yellow in color. Needless to say, the CIA-run media will attempt to sell this naturally occurring phenomenon as an alien invasion (see below). Although only conjecture, it appears that the alleged planet Ceres is code-word for the Rings of Saturn for Earth is slated to pass through a 'Ceres' or 'Series' of Saturn's Rings. The Rings of Saturn, which are admittedly Black Holes, will likely have a transformative creation-like effect on Earth due to Syzygy (i.e., when planetary bodies are 'yoked together'). Black Holes exhibit strong gravitational effects that nothing—not even particles and electromagnetic radiation such as light—can escape from. Coincidentally, Saturn is known as both the Black Planet and Black Star, a theoretical alternative to the Black Hole concept from general relativity. The 5 Olympic Rings, which are admittedly Greco-Roman in origin, are an apparent tribute to the 5-rings of Saturn which the Earth is
slated to pass through during the 42-day Apocalypse. The black and final Olympic ring is likely representative of Saturn which poses the final threat to Greco-Roman Empire who must defeat it in order to survive the Apocalypse. That is likely why the symbol for Ceres contains a cross and question mark for even the Greco-Roman Empire is clueless as to what will happen to them and the Universe when Earth passes through the Rings of Saturn. The notion that the Earth will be targeted by the 5 Rings of Saturn over a 42-day period is coincidentally found within the symbol of Saturn which contains both a cross symbol (i.e., ‘+’) and a lower case letter ‘h’. The ‘+’ symbol is symbolic of the ‘cross’ or ‘cross-over’ of Saturn while the letter ‘h’ (which is pronounced ‘aich’ or ‘aitch’) is indicative of the ‘Chi’ symbol which it is located in the 5th position of the Roman Score, a numeric reference to the 5 Rings of Saturn. Lastly, the term ‘Saturn’ (S+T+R+N/X) is consonantly and phonetically speaking the same as the term ‘Asterisk’ (S+T+R+N/X) whose ‘*’ symbol is an actual ‘Star’ (S+T+R) which is most often depicted with 5 points, a symbolic tribute to the impending 5 Rings of Saturn.

4.2: Saturn's Rings of Fire
Exactly what will transpire when Ceres (i.e., the Rings of Saturn) appears over Earth on Sunday, November 19, 2017, is not known, but it appears that Earth will be enveloped in a ring or rings of fire. This phenomenon may include but is not limited the activation of the Earth’s magnetosphere, possibly resulting in a global Aurora Borealis anchored at the North and South Pole in Greenland and Australia. In what appears to be a titular tribute to the fiery Rings of Saturn, the volcanic chain encircling the Pacific Ocean is entitled the Great Ring of Fire. The late Johnny Cash’s song entitled ‘Ring of Fire’ (1963) is evidently a musical tribute to this impending phenomenon which states, ‘I fell into a burning ring of fire...I went down, down, down and the flames went higher...And it burns, burns, burns...The ring of fire, the ring of fire’. A Ring of Fire around the Earth was also foreshadowed in the logo of Black Sabbath’s ‘The End Tour’ which coincidentally started on January 20, 2016, the same date that Planetary Alignment commenced. The total Solar Eclipse on September 1, 2016, was interestingly entitled a ‘Ring of Fire Eclipse’. Roughly 3-weeks later on September 23, 2016, USA Today published a report entitled ‘Gary
Johnson: *Forget About Climate Change, Sun Will Someday Encompass Earth*’ which was evidently designed to foreshadow the notion that the Earth will travel through the Sun one day, albeit the Black Sun (i.e., *Ceres*). In what appears to be more pre-Great Ring of Fire programming, the BBC published a report on September 26, 2016, entitled ‘*Europa Moon Spewing Water Jets*’. Needless to say, when *Ceres* (i.e., the *Rings of Saturn*) finally appears above Earth, she will likely be spewing fire. Lastly, the *Solar Eclipse of February 26, 2017*, was also dubbed a ‘*Ring of Fire Eclipse*’, further foreshadowing that the arrival of the fiery *Rings of Saturn* is imminent.

4.3: Saturn in Popular Culture

Aside from the Greco-Roman *Cult of Saturnalia* which was likely formed once the ruling class of the Greco-Roman Empire found out that they were doomed by Saturn, there are countless references to the *Black Star of Saturn* in popular culture. For example, David Bowie released a song and album in 2016 under the title of ‘Blackstar’. Bowie was evidently assassinated shortly thereafter during a ritualistic blood sacrifice offered up to the arrival of the Black Star known as Saturn. If the Greco-Roman Empire is to be victorious over Apocalypse, it must conquer the *Rings of Saturn*. That is why the Greco-Roman goddess of victory is Nike which is celebrated on a global level via Nike Inc., whose famous Swoosh logo is an artistic rendition of the rings of Saturn (see above photo), the arch-enemy of the Greco-Roman Empire. The Rings of Saturn are also depicted in the logo of Boeing, the largest aerospace company in the World which was likely responsible for the actual construction of the International Space Station (ISS), as well as in the logo of NASA which likely coordinated the construction of the ISS (i.e., Death Star).
4.4: Nibiru

The term Nibiru translates to 'crossing' or 'point of transition' in Babylonian astronomy where it is identified with Marduk. Nibiru is also code-word for Ceres (i.e., the Rings of Saturn) which will 'cross' over Earth on Sunday, November 19, 2017. The establishment of the Nibiru Point is described in tablet 5 of the creation epic 'Enûma Eliš' when Marduk fixed the locations (manzazu) of Nibiru, Enlil and Ea in the sky. In short, the Enûma Eliš states that, 'Nibiru is [Marduk's] Star, which He made appear in the Heavens...The Stars of Heaven, let him [Nibiru] set their course; let let him shepherd all the gods like sheep. In other words, Marduk (i.e., Nibiru/Saturn) is the ruler of the Universe which all gods must bow down to for her appearance marks the turning point of this (i.e., the End of the Maya Calendar). Although the MUL.APIN, the conventional title given to a Babylonian compendium that deals with many diverse aspects of Babylonian astronomy and astrology, identifies Nibiru as Jupiter, it is nothing more than a veiled reference to Saturn. The MUL.APIN states that 'When the stars of Enlil have been finished, one big star – although its light is dim – divides the sky in half and stands there: that is, the star of Marduk, Nibiru, Jupiter; it keeps changing its position and crosses the sky'. Translation: 'When the planets have aligned, one big star named Saturn– although its light is dim which is why it's known as the Black Planet – divides the Ages and stands there: that is, the Star of Saturn (i.e., Nibiru); it keeps changing its position and crosses over the Earth'. Said crossing of Earth by Marduk is known as the Nibiru Cataclysm which is defined as the supposed '...disastrous encounter between the Earth and a large planetary object (either a collision or a near-miss) which certain groups believe will take place in the early 21st century'. Naturally, Wikipedia states that, 'The idea that a planet-sized object will collide with or closely pass by Earth in the near future is not supported by any scientific evidence and has
been rejected by astronomers and planetary scientists as pseudoscience and an Internet hoax.

4.5: Arrival of Ceres (Rings of Saturn)
Based on its name and symbol alone, it can be deduced that the black dwarf planet known as Ceres is code-word for the Rings of Saturn which are evidently slated to pass over Earth shortly after the end of the Maya Calendar on Sunday, November 19, 2017. Although Ceres is allegedly the largest object in the asteroid belt that lies between the orbits of Mars and Jupiter, it appears to be a veiled reference to the Rings of Saturn. The astrological symbol for Ceres contains both a sickle and a cross, and the term 'Ceres' (C/K+R+S) is consonantly speaking the same as 'Cross' (C/K+R+S), the official symbol of the Roman Empire, for Ceres is evidently slated to 'cross' over Earth. The 'X' in Planet X (a name used in reference to a rouge planet in our Solar System) is also a twisted cross, another veiled reference to Ceres. Consequently, it can be deduced that Ceres and Planet X are in-fact one and the same planetary body. Because the letter 'C' and the 'S' are interchangeable within the English language (e.g., cent, century, etc.), 'Ceres' (C/S+R+C/S) is consonantly and phonetically speaking the same as 'Series' (C/S+R+C/S) for Earth is slated to pass through a 'series' of rings belonging to Saturn. When Ceres passes over planet Earth, it will likely render a prolonged Solar Eclipse which will ultimately fulfill the Three Days of Darkness prophecy. In a November 11, 2009, report from NASA entitled '2012 -- A Scientific Reality Check', Donald Yeomans of NASA's Near Earth Object Program stated that 'There's no Planet Nibiru, there's no Planet X and nothing is hurtling toward us. But
there have been claims on the Internet that there is a planet called Nibiru, four times the size of the Earth that's going to the Earth, or smack it, in December of 2012’. The blatant denial of a Planet X was reiterated in a NASA report from December 22, 2012, entitled 'Beyond 2012: Why the World Didn't End' which posed the question: 'Is there a planet or brown dwarf called Nibiru or Planet X or Eris that is approaching the Earth and threatening our planet with widespread destruction?'. NASA answered the hypothetical question by stating that, 'Nibiru and other stories about wayward planets are an Internet hoax. There is no factual basis for these claims. If Nibiru or Planet X were real and headed for an encounter with the Earth in 2012, astronomers would have been tracking it for at least the past decade, and it would be visible by now to the naked eye. Obviously, it does not exist. Eris is real, but it is a dwarf planet similar to Pluto that will remain in the outer solar system; the closest it can come to Earth is about 4 billion miles'. The reference to a 'dwarf planet' appears to be an ominous reference to the dwarf planet Ceres which is evidently slated to pass over Earth on November 19, 2017. Similar to NASA's fraudulent claims in respect to Planetary Alignment in 2016, there are 'scientific' claims of so-called new planets within our Solar System which were disseminated to subconsciously program the World for the arrival of Ceres. Firstly, on December 8, 2015, Cornell University revealed that they 'have detected a previously unknown object in our solar system', a 'planet-sized, object, gravitationally unbound' that has since been named 'Gna'. Secondly, on January 20, 2016, Popular Science published a report entitled 'The Search for the Real Planet X' which revealed that scientists 'have found evidence that there's a giant planet in the outer solar system'. Thirdly, a day later on January 21, 2016, the New York Post published a report entitled 'Planet X, or Nibiru, is on a Crash Course with Earth, Doomsayers Believe' which stated that '...although many conspiracies, hoaxes and theories surrounding Planet X have previously been debunked, they have gaining in popularity since the discovery of 'Planet 9'. Fourthly, on January 25, 2016, the Daily Mail published a report entitled 'Discovery of 'Planet 9' has Dramatic Repercussions for the World of Astrology' which revealed that Planet 9 will have a major effect on astrological events. Lastly, in order to foreshadow the arrival of Planet X and its inherent 'cleansing' of Planet Earth, Russia Today published a report on April 9, 2016, entitled 'Planet X to Really Cause Mass Extinction this Month?'. Needless to say, these reports, taken collectively, confirm, albeit in a de facto manner, that the CIA, European Space Agency and NASA will try to deceive the World in respect to the arrival of a foreign planetary body over Earth. In other words, the impending cross over of Ceres (i.e., Nibiru/the Rings of Saturn) will be hyped in the media as the arrival Aliens and/or a foreign planetary body (e.g., Planet 9, Planet X, etc.).
4.6: The Passover
When Ceres (i.e., the Rings of Saturn) starts to pass over Earth on Sunday, November 19, 2017, it will invoke the 'Passover' in the Holy Bible which is where the term was evidently derived from. In short, the Passover is a Roman-Jewish holiday most intimately associated with the Plagues of Egypt which coincidentally included 'thick darkness in all the land' for three days (Exodus 10:21–23), 'thunder', 'hail' and fire which 'ran along upon the ground' (Exodus 9:23-24) which Biblical scholars equate to lava from volcanic eruptions. The so-called 'cleansing' of Earth associated with the Passover will also be spiritual in nature, likely resulting in the mass death of 'wicked' people (Exodus 11:46). During the Passover in the Bible, the Israelites marked the doorposts of their homes with blood so that the Spirit of the Lord knew to 'pass over' their house and not kill their first-born son. In the event the Greco-Roman Empire survives the Passover, they will enjoy the 'first-fruits of the barley' (i.e., the New World) as celebrated during the Jewish holiday.
4.7: The Orion Nebula

It appears that Ceres (i.e., the Rings of Saturn) may be astrological and semantical cover for the Orion Nebula in that Ceres may be located within the Orion Nebula, namely within Orion's Sword which is comprised of three stars (i.e., 42 Orionis, Theta Orionis, and Iota Orionis). This theory is based on the fact that the Mayans of Central America, who created the Maya Calendar, described the Orion Nebula within their 'Three Hearthstones' creation myth. Although modern sources claim that the Three Heathstones correspond to the three stars in Orion's Belt (i.e., Rigel, Saiph and Alnitak), it's far more likely that the Maya were referring to the three stars within Orion's Sword, the center one being the Orion Nebula. Interestingly, the Orion Nebula is also called 'Messier 42' and 'M42' which when deified invoke both the Apocalypse and Christmas in that 'Messier 42' (M+S+R) acronymically and consonantly speaking equates to 'Miss Rome' while the number '42' is reflective of the 42-day Apocalypse which commences on Christmas Day within the Solar Calendar (i.e., November 19, 2017) and end on January 1, 2018. The slanted \( '\pi' \) symbol (i.e., 'P', 'P', or 'π') is an apparent depiction of the sword and belt of Orion in that the recreation of Earth goes on to infinity. Lastly, the Horsehead Nebula, a dark nebula located within the constellation of Orion, may be where the Four Horsemen of the Apocalypse depicted in the Book of Revelation was originally derived from.
4.8: Hindi God of Rahu

In the Hindu tradition, Rahu is the severed head of Svarbhānu who swallows the Sun, causing Eclipses. This is likely were the word 'rue' was derived from for the World will rue the day when Rahu or Ceres (i.e., the Rings of Saturn) passes over Earth. Rahu is one of the navagraha (nine planets) in Vedic astrology and is often paired with Ketu. In Vedic astronomy, Rahu is considered to be a rogue planet. The term 'rogue' is defined as 'aberrant', dangerous, or uncontrollable' or something that is 'different from others in usually a dangerous or harmful way'. Legend states that Rahu's immortal head swallows the Sun from time to time, causing Eclipses. The Sun passes then through the opening at the neck, ending the Eclipse. Rahu is seen as a demon that does his best to plunge any area of life He controls into chaos, mystery, and cruelty. Rahu is also a legendary master of deception who signifies cheaters, pleasure seekers, drug dealers, poison dealers, insincere and immoral acts. This account appears to be a veiled reference to the 'cleansing'effect that Rahu (i.e., Ceres) will have upon the wicked people of Earth.

Interestingly, the Naganatha Temple at Thirunageswaram, Tamil Nadu, India is dedicated to the god of Rahu. The daily abhishekim (i.e., an enacted prayer, rite of passage and/or religious rite or ritual) during Rahu Kaalam features milk that turns blue when it flows down and touches the statue of Rahu. The ritual, which has been followed for over 1,500-years, is an apparent tribute to the blue lightning of Rahu (i.e., Ceres) which will likely be the result of Syzygy (i.e., when planetary bodies are 'yoked together'). Lastly, according to Hopi prophecy, 'When the Blue Star Kachina makes an appearance in the Heavens, the Fifth World will emerge'. Although Ceres is allegedly black in color, it may turn blue with lightning once it envelops Earth due to the aforementioned Syzygy.
5. THREE DAYS OF DARKNESS PROPHECY:

5.1: Three Days of Darkness Prophecy

Based on both Biblical and Mayan prophecy, it appears that Three Days of Darkness prophecy will commence at the End of Days on Sunday, November 19, 2017. That being said, 42-days of darkness are expected during the re-Creation process known as the Apocalypse, not three. The European Space Agency and NASA will predictably state that the darkness is a result of a foreign object or entity within our Solar System (e.g., Aliens, Planet 9, Planet X, etc.), not Ceres (i.e., Nibiru/the Rings of Saturn) due to Planetary Alignment which NASA repeatedly denied would ever happen. Nevertheless, in order to psychologically prepare the World for the impending darkness, the International Business Times published a report on January 19, 2016, entitled 'No 15 Days of Darkness Despite 5-Planet Alignment on Jan 20-Feb 20', raising the notion of darkness in the aftermath of Planetary Alignment. The concept of 'Three Days of Darkness' harkens back to the Holy Bible which associates the Creation process with darkness as described in Genesis 1:2 which states 'And the Earth was without form, and void; and darkness was upon the face of the deep. And the Spirit of God moved upon the face of the waters'. Three days of darkness was specifically referenced in Exodus 10:22 which states that '...Moses stretched forth his hand toward Heaven; and there was a thick darkness in all the land of Egypt three days'. There is also a reference to darkness in Amos 5:20 which states that 'Shall not the day of the Lord be darkness, and not light? Even very dark, and no brightness in it?'. The 'day of the Lord' appears to be a veiled reference to the Apocalypse.
There is also an episode in three of the Canonical Gospels in which the sky becomes dark for three hours during the crucifixion of Jesus. Firstly, Matthew 27:45 states that 'Now from the sixth hour there was darkness over all the land unto the ninth hour'. Mathew's account of the crucifixion and subsequent darkness includes an earthquake and the raising of the dead. Secondly, Mark 15:33 states 'And when the sixth hour was come, there was darkness over the whole land until the ninth hour'. Marks account of the crucifixion and subsequent darkness transpired on the eve of Passover, an apparent reference to the impending pass over of Ceres (i.e., the Rings of Saturn). Thirdly, Luke 23:44-45 states 'And it was about the sixth hour, and there was a darkness over all the earth until the ninth hour. And the Sun was darkened, and the veil of the temple was rent in the midst'. Evidently, Luke originally explained the darkness as an Eclipse. Although the majority of the Gospel of Luke manuscripts include the Greek phrase 'eskotisthe ho helios' which translates to 'the Sun was darkened', the earliest manuscripts state 'tou heliou eklipontos' which translates to 'the Sun's light failed' or the 'the Sun was in Eclipse'. Considering that there are three accounts (i.e., Matthew, Mark and Luke), three crosses, three crucifixions and three purported hours of darkness, it can be deduced that, numerologically speaking, that there is a concerted effort to deceive the masses in respect to the actual length of the Apocalypse. Aside from the Biblical references, there is an unsubstantiated narrative entitled 'Three Days of Darkness: A Mayan Story' which gives a first-hand account of the darkness through the eyes of a Mayan grandmother who was very young when 'she and all the people woke up to no Sun', eventually living through 'three days of darkness'. The time of darkness had been foretold by the Mayan elders for it 'had happened many, many times before' so the 'elders began to build the fires, for the fires must be lit or the darkness can drive some to madness'. The grandmother recalled that 'when the people become too wicked, when we forget to worship the Gods and have respect for all life, that the Gods block out the Sun to remind us of the sacred ways and the importance of worship and of gratitude for life'. The grandmother also stated that 'the darkness would come again' because 'the people will always stray far from their Creator and must be reminded time and time and time again'. According to Marie-Julie Jahenny (1850-1941), who was intimately affiliated with the Roman Catholic Church, the Three Days of Darkness prophecy will commence when 'The days will be beginning to increase' (days start to get longer after December 22). Jahenny also predicted that the Three Days of Darkness would 'not be at the height of summer nor during the longer days of the year (summer time), but when the days are still short (late winter or early spring time). Jahenny also prophesized that the Three Days of Darkness 'will not be at the end of the year (December), but during the first months (of the year)'. Needless to say, the very opposite is true which further confirms that there is a grand conspiracy to hide the true date of the Apocalypse from humanity. In the song entitled 'Pueo' (2012) by Nahko Bear and Medicine for the People, it states that 'There will come a day...When the Sun don’t shine...And the Moon don’t rise in its cycle'. The song appears to be a modern tribute to Native American or Hawaiian prophecy about the impending Three Days of Darkness. Lastly, in order to psychologically program the World for the impending Three Days of Darkness, the Sun disappeared Eclipse-style in the opening scene of the new film 'Star Wars: The Force Awakens' (2015), the single-highest grossing movie of all-time. The film also features a Death Star-like Starkiller Base which sucks energy from the Sun, causing it to go black.
5.2: Biblical References to Darkness

As evidenced, there are at least 13 verses in the Holy Bible which reference the coming days of darkness when the Sun and the Moon shine no more, most likely due to an Eclipse by the Rings of Saturn. Although it could be argued that these Bible verses were written in respect to everyday Solar and Lunar Eclipses, they are generally made in reference to the End of Days which is Biblical code-word for the end of the Maya Calendar on Sunday, November 19, 2017.

1. 'For the stars of Heaven and the constellations thereof shall not give their light: the Sun shall be darkened in his going forth, and the Moon shall not cause her light to shine.' — Isaiah 13:10
2. 'And when I shall put thee out, I will cover the Heaven, and make the stars thereof dark; I will cover the Sun with a cloud, and the Moon shall not give her light.' — Ezekiel 32:7
3. 'The Earth shall quake before them; the Heavens shall tremble: the Sun and the Noon shall be dark, and the stars shall withdraw their shining.' — Joel 2:10
4. 'The Sun shall be turned into darkness, and the Moon into blood, before the great and terrible day of the Lord come.' — Joel 2:31
5. 'The Sun and the Moon shall be darkened, and the stars shall withdraw their shining.' — Joel 3:15
6. 'And it shall come to pass in that day, saith the Lord God, that I will cause the Sun to go down at noon, and I will darken the Earth in the clear day.' — Amos 8:9
7. 'Immediately after the tribulation of those days shall the Sun be darkened, and the Moon shall not give her light, and the stars shall fall from Heaven, and the powers of the Heavens shall be shaken.' — Matthew 24:29
8. 'But in those days, after that tribulation, the Sun shall be darkened, and the Moon shall not give her light.' — Mark 13:24
9. 'And the Sun was darkened, and the veil of the temple was rent in the midst.' — Luke 23:45
10. 'The Sun shall be turned into darkness, and the Moon into blood, before the great and notable day of the Lord come.' — Acts 2:20
11. 'And now, behold, the hand of the Lord is upon thee, and thou shalt be blind, not
seeing the Sun for a season. And immediately there fell on him a mist and a darkness; and he went about seeking some to lead him by the hand.' — *Acts 13:11*

12. 'And I beheld when he had opened the Sixth Seal, and, lo, there was a great earthquake; and the Sun became black as sackcloth of hair, and the Moon became as blood.' — *Revelation 6:12*

13. 'And the fourth angel sounded, and the third part of the Sun was smitten, and the third part of the Moon, and the third part of the stars; so as the third part of them was darkened, and the day shone not for a third part of it, and the night likewise.' — *Revelation 8:12*

5.3: Six Days of Darkness Hoax

In order to psychologically prepare the World for the impending *Three Days of Darkness*, as well dismiss the notion that a prolonged Lunar and Solar Eclipse is scientifically possible, the Independent published a report on October 28, 2014, entitled 'NASA Confirms Earth Will Experience 6 Days of Total Darkness in December 2014'. After the hoax went viral on the internet and various social media platforms, the Times of India published a report on October 28, 2014, entitled 'NASA’s ‘Six Days of Total Darkness in December 2014’ is a Hoax'. By working in tandem at the behest of the CIA, NASA and the media were able to effectively spread the false notion of '6 Days of Darkness' by first stating that it was true and then claiming that it was a hoax, on the very same day. The fact that NASA even addressed this seemingly outlandish claim confirms, albeit in a de facto manner, that: a) they were in-fact party to the hoax for nefarious reasons, and b) that multiple days of darkness are indeed imminent. Said days of darkness will evidently commence on Sunday, November 19, 2017, roughly 35-months after the hoax was originally slated to take place.
6. ALIEN INVASION HOAX:

6.1: Project Blue Beam
Aside from the creation of Area 51 in 1955, there have been numerous state-sponsored projects and studies which were created in order to sell the notion that evidence of aliens and UFOs exist on a governmental level. This was evidently done in order to substantiate claims of alien and UFO activity just prior to denying it, making the notion of a cover-up seem all the more plausible. In other words, if the government routinely acts like its hiding something, then people are more apt to believe that what they are pretending to hide actually exists. These projects and studies include but are not limited to: Project Sign (1947), Estimate of the Situation (1948), Project Grudge (1949), Project Magnet (1950), Project Blue Book (1952), Project Second Storey (1952) and the Condon Committee (1968). When Ceres (i.e., the Rings of Saturn) finally arrives over Earth, the CIA along with various heads of state will predictably cite the aforementioned projects and studies in a premeditative effort to sell the notion that the Earth is undergoing an alien invasion. In other words, evidence from said projects and studies will be cited in the media as undeniable proof that alien exist and are aggressive in nature. Alien aircraft and authentic-looking alien bodies will predictably be shown on TV. That is why no alien or UFO evidence has ever been released to date for the CIA is waiting for the arrival of Ceres (i.e., the Rings of Saturn) before they disclose their so-called evidence. The notion that the arrival of Ceres (i.e., the Rings of Saturn) will be sold by the CIA-run media as an alien invasion was foreshadowed by the 'Illuminati Game' (1982) which features a card entitled 'Church of Middle America' that depicts a full-scale alien invasion. The Illuminati Game has playing cards which in essence predicted the 9/11 Attacks, the rise of Obama, as well as the Fukushima disaster. Roughly 12-years later in 1994, French journalist Serge Monast disclosed NASA's 'Project Blue Beam' which was designed in-part to sell the notion that the arrival of a planetary body (i.e., Ceres) is inherently man-made in nature, which it obviously won't be. Project Blue Beam will reportedly feature: a) man-made earthquakes
at precise locations around the World, b) a gigantic space show beamed all over the planet simultaneously which will set loose 'millions of programmed religious fanatics through demonic possession on a scale never witnessed before', c) a hoax that will make humanity believe that an alien invasion is about to occur in every major city, and d) a second hoax that will make Christians think that the Rapture is about to happen. In order to further program humanity for the alleged alien invasion of Earth, scores of Hollywood propaganda films have been released over the last few decades such as 'The Arrival' (1996) and 'Arrival' (2016) which debuted at the Venice Film Festival in Italy on September 1, 2016. The movie poster for 'Arrival' depicts a massive disc above planet Earth (see above photo) which was evidently designed to foreshadow the arrival of Ceres (i.e., the Rings of Saturn).

6.2: Alien & UFO Disclosure Trending
In order to program the World for the impending arrival of Ceres (i.e., the Rings of Saturn) which will predictably be touted by the CIA-run media as an alien invasion, politicians have been going out of their way to say that an alien disclosure is imminent, one which will eventually manifest itself in reality. Alien and UFO foreshadowing started in earnest back in September of 2015 when CIA-sponsored whistle-blower Edward Snowden claimed that aliens are trying to make contact with Earth. Then in March of 2016, former First Lady and 2016 U.S. Presidential candidate Hillary Clinton stated in respect to disclosure that 'I'm going to do it again. There's a new name for UFOs. It's Unexplained Aerial Phenomenon. That's the new nomenclature. I would like us to go into those files and hopefully make as much of that as public as possible. If there's nothing there, let's tell people there's nothing there. If there is something there, unless it's a threat to national security, we ought to share it'. Clinton's premeditative statements are key for they: a) introduced the world to the term 'Unexplained Aerial Phenomenon' (UAP), and b) foreshadowed that future UAP will be deemed a 'threat to national security'. Based on Clinton's statement, it can be deduced that the impending arrival of Ceres (i.e., the Rings of Saturn) will be 'unexplained' to the public and that the governments of the World will declare the never-before-seen phenomena a threat to national security in order to terrorize and/or possibly cull billions of people. Roughly two months after Clinton's statements, it was reported on May 26, 2016, that U.S. President Barack Obama would 'reveal alien and UFO details held by the U.S. before he leaves office' which transpired on January 20, 2017, the date which Planetary
Alignment commenced, albeit a year prior. Lastly, author and propagandist Ben Mezrich published a new book on September 6, 2016, entitled 'The 37th Parallel: The Secret Truth Behind America's UFO Highway' which was further designed to sell the notion that UFOs are real just prior to the arrival of Ceres (i.e., the Rings of Saturn). A Hollywood movie with the same title is also forthcoming. On September 23, 2016, roughly 2-weeks after Mezrich's book was released, USA Today published a report entitled 'Stephen Hawking: If Aliens Call, We Should be 'Wary of Answering'' which was evidently designed to sell the notion that the impending alien invasion will be violent in nature. That same day, September 23, 2016, Fox News published a report entitled 'Are Aliens Avoiding Earth?' which suggests that aliens know where Earth is located and are therefore more likely to visit at a future date. Lastly, on September 23, 2016, the BBC published a report entitled 'What If the Aliens We Are Looking For Are AI?' which was evidently designed to foreshadow the notion that aliens are much smarter than humans, making the likelihood of survival upon an encounter far less likely. Lastly, on January 29, 2017, it was reported that the CIA released thousands of declassified 'X-files' on aliens, flying saucers and other unexplained phenomena, an apparent preview of things to come.

7. BLOOD MOON PROPHECY:

7.1: Blood Moon Prophecy
The Blood Moon Prophecy was a series of Apocalyptic beliefs promoted by Christian ministers John Hagee and Mark Biltz which claimed that a tetrad (a series of four) of consecutive Lunar Eclipses (with six full Moons in between) was a sign from God that the End Times depicted within the Holy Bible was imminent. In short, the Blood Moon Prophecy was based on Acts 2:20 which states that 'The Sun shall be turned into darkness, and the moon into blood, before the great and notable day of the Lord come', and Revelation 6:12 which states 'And I beheld when he had opened the Sixth Seal, and, lo, there was a great earthquake; and the Sun became black as sackcloth of hair, and the Moon became as blood'. Although the Blood Moon Prophecy commenced with a Lunar Eclipse on April 15, 2014, and concluded with a Lunar Eclipse on September...
27, 2015, there was obviously was no Apocalyptic events which followed which confirms that the prophecy was premature in nature. Although Geoff Gaherty of Space.com stated that the tetrad of Blood Moons were not a sign of the impending Apocalypse and were 'hardly something to be concerned about', they are in-fact a Cosmic indicator that transformative Apocalyptic-like events are imminent and that the end of the Maya Calendar is upon us. Although there were erroneous reports that a tetrad of Blood Moons transpired back in 2003, they were never seen or reported. These fraudulent reports were designed to sell the notion that Blood Moons occur on a regular basis and therefore have no astrological, esoteric or eschatological significance.

**Blood Moon Timeline:**

1. **April 15, 2014:** Lunar Eclipse  
   —176 Days Between
2. **October 8, 2014:** Lunar Eclipse  
   —178 Days Between
3. **April 4, 2015:** Lunar Eclipse  
   —176 Days Between
4. **September 27, 2015:** Lunar Eclipse

**7.2: Blood Sun**

The Blood Sun of October 16, 2017, was not mentioned in the aformentioned Blood Moon Prophecy because humanity was not supposed alive to witness it due to a global biological pandemic which has thus far been thwarted by Truther.org. In order to cover-up the Blood Sun which would have put the World on notice that the Apocalypse is nigh, the CIA staged Storm Ophelia (O-Fool-Ya) in the Norther Atlantic Ocean and and started forest fires in California, Portugal and Spain whose were scapgoated for the blood-colored Sun. Although official reports claim that the Blood Sun phenomenon was only relegated to the United Kingdom, the Blood Sun was witnessed in Germany which not affected by either Storm Ophelia or the fires in Portugal and Spain. The fact that this was not even reported in Germany confirmd, albeit in a defacto manner, that the Blood Sun has serious astrological, esoteric or eschatological significance. Similar to the aformentioned Blood
Moons, the Blood Sun of October 16, 2017, confirms, albeit in a defacto manner, that the Apocalypse is nigh. In order to foreshadow this very notion, scores of propaganda reports claimed that the Blood Sun was a sign that Earth was being visited by Nibiru and that it was indeed the End of the World.

8: THE SEVEN SEALS PROPHECY:

8.1: The Seven Seals
The Seven Seals depicted in the Book of Revelation within the Holy Bible allegedly refers to the 7 symbolic seals that secure the scroll that John of Patmos saw in his so-called 'Revelation of Jesus Christ'. The Seven Seals allegedly contain secret information known only to God until the Lamb/Lion was found worthy to open the scroll and to look at its contents. In reality however, the Seven Seals appear to be a veiled reference to the first 7 astrological events which lead up to the Apocalypse, namely the four Blood Moons, two total Solar Eclipses and Planetary Alignment. Because humanity was supposed to be exterminated during Great Tribulation via a global biological pandemic, the other astrological events after the total Solar Eclipse on the heels of Planetary Alignment are not mentioned in Bible. In short, the Seven Seals Prophecy was a Biblical and numerical hoax simply because there are more than 7 major cosmic events which precede the Apocalypse. Although the Seven Seals were to be sealed up (i.e., 'not understood') until the End of the Age, they have now been deciphered as nothing more than the premeditated script for the systematic genocide of humanity which was slated to commence with the first opening of the first seal on April 15, 2014. Because the letter 'S' is interchangeable with the letter 'C' (which doubles as the letter 'K') in the Roman-English language, the term 'Seal' (C/S+L) is consonantly speaking the same as both 'Cull' (C/S+L)
and 'Kill' (C/K+L). That is why all 4 Blood Moons fell on the Jewish Holidays of Passover and Sukkot which are coincidentally known for their 'burnt offerings' (i.e., Blood Sacrifices). The total Solar Eclipse also fell on Rosh Chodesh Eve and/or Special Shabbat Eve, both of which also entail Blood Sacrifices. This unmistakable coincidence confirms, albeit in a de facto manner, that the Seven Seals (i.e., the Seven Eclipses) were designed to be the 'Seven Culls', resulting in the mass genocide of humanity. That is precisely why the opening of the first four seals in the Bible releases the Four Horsemen which are symbolized as Conquest or Pestilence (i.e., disease), War, Famine and Death, respectively. The opening of the Fifth Seal releases the cries of martyrs for the 'Wrath of God', while the Sixth Seal prompts earthquakes and cataclysmic events. The Seventh Seal cues the Seven Bowls (i.e., Seven Plagues) which are described as follows: First Bowl: 'foul and painful sores'; Second Bowl: 'seas and the oceans become blood as of a dead man, forcing everything in the sea to die'; Third Bowl: 'rivers and the remaining sources of water turn to blood'; Fourth Bowl: 'Sun causes a major heatwave to scorch the planet with fire'; Fifth Bowl: 'thick darkness overwhelms the kingdom of the beast'; Sixth Bowl: 'demonic spirits work Satanic miracles to gather the nations of the world to battle against the forces of good during the Battle of Armageddon'; and the Seventh Bowl: 'global earthquake causes the cities of the world to collapse. Every mountain and island are removed from their foundations'. Due to timely terror alerts from Truther.org, all Seven Seals (i.e., the first 7 Eclipses) remained earthquake and terror free. According to Revelations 8:1, 'And when he had opened the Seventh Seal, there was silence in Heaven about the space of half an hour'. This verse is an apparent reference to the short time between the Seventh Seal (Eclipse) on September 1, 2016, and the Apocalypse roughly 14-months later on Sunday, November 19, 2017. Lastly, Revelations 8:5 states in respect to the Seventh Seal that '...the angel took the censer, and filled it with fire of the altar, and cast it into the Earth: and there were voices, and thunderings, and lightnings, and an earthquake'. This Bible verse appears to be a veiled to the earthquakes and the Ring of Fire caused by the arrival of Ceres (i.e., the Rings of Saturn).

THE SEVEN SEALS:

1. FIRST SEAL (April 15, 2014): Blood Moon Total Lunar Eclipse (Passover)
2. SECOND SEAL (October 8, 2014): Blood Moon Total Lunar Eclipse (Sukkot)
3. THIRD SEAL (March 20, 2015): Total Solar Eclipse (Eve of Rosh Chodesh & Special Shabbat)
5. FIFTH SEAL (September 27, 2015): Blood Moon Total Lunar Eclipse (Sukkot)
6. SIXTH SEAL: (January 20, 2016) Planetary Alignment Begins
7. SEVENTH SEAL (March 9, 2016): Total Solar Eclipse
Planetary Alignment of 2016

Considering that the Maya Calendar is astrological in nature, it can be deduced that its end-date will be preceded by a series of astrological events, namely Planetary Alignment. Planetary Alignment is 'When the stars align', an idiom which is defined by the Urban Dictionary as '...when an unexpected and nearly impossible event takes place. Usually due to pure luck or the divine intervention of God'. In other words, it's the rarest of celestial events. In a July 5, 2009, report from Universe Today entitled 'Planetary Alignment', it states that 'You may have heard a lot about future planetary alignments, including rumors about 12/21/2012 when some say the World is going to end, and there will be a Planetary Alignment. That is all it is, a rumor. There will be no Planetary Alignment in 2012...In September of the year 2040, four of the planets – Saturn, Venus, Jupiter and Mars – will be roughly aligned when seen from Earth'. The notion that Planetary Alignment is intimately tied to the end of the Maya Calendar was addressed by NASA in an November 11, 2009, report entitled '2012 -- A Scientific Reality Check' in which Donald Yeomans of NASA's Near Earth Object Program stated that 'There are no planetary alignments in 2012. There won't be any planetary alignments for a couple of decades on either side of 2012. And even if there were, it wouldn't be an effect because the only objects in space that materially affect the Earth's motion are the Sun and the moon'. NASA reiterated this notion roughly 3-years later on December 22, 2012, in a report entitled 'Beyond 2012: Why the World Didn't End' which posed the question: 'Could planets align in a way that impacts Earth?'. Again, NASA stated that 'There are no planetary alignments in the next few decades and even if these alignments were to occur, their effects on the Earth would be negligible. One major alignment occurred in 1962, for example, and two others happened during 1982 and 2000. Each December the Earth and Sun align with the approximate center of the Milky Way Galaxy but that is an annual event of no consequence'. Despite the official statements from Universe Today and NASA's in respect to Planetary Alignment, Jupiter, Mars, Mercury, Saturn and Venus aligned for 31-days starting on January 20, 2016, until February 20, 2016, evidently a once in a 3,600-year event known as Harmonic Convergence (see below). That is evidently why 2016 is known as the Great Year in astronomy which the Greek philosopher Plato (c. 427–347 BC) referred to as the 'perfect
year’ in which the celestial bodies (planets) and the diurnal rotation of the fixed stars (circle of the Same) return to their original positions (i.e., the 31-day planetary alignment of 2016). The Roman philosopher Cicero (106–43 BC) wrote in De Natura Deorum (45 BC) that the Great Year will be completed ‘...when the Sun, Moon and five planets having all finished their courses have returned to the same positions relative to one another’ which is exactly what happened during the Planetary Alignment of 2016. Needless to say, the reports from NASA and Universe Today in respect to Planetary Alignment are fraudulent in nature and were premeditatively disseminated at the behest of the CIA in order to dismiss the notion that Planetary Alignment is intimately tied to the end-date of the Maya Calendar. Since Planetary Alignment commenced in 2016, it can be deduced that the Mayan calendar will end within the calendar year of 2017.

10. PLANETARY RETROGRADE OF 2016:

10.1: Planetary Retrograde
Shortly after Planetary Alignment transpired from January 20, 2016 until February 20, 2016, the planets began to enter what is known as retrograde status. This astrological event was confirmed by a New York Daily News report from April 1, 2016, which revealed that ‘By the end of April, there will be five planets in retrograde’ - Pluto, Saturn, Jupiter, Mars and Mercury’. On April 28, 2016, the 5 classical planets officially went into retrograde status, evidently a once in a 3,600-year event. Since all the planets orbit the Sun, retrograde occurs when said planets begin to move in the opposite direction of the Sun, a clear sign that transformative cosmic events are imminent. Considering that the
planets in question lie roughly on the same flat plane within our Solar System (i.e., Plane of the Ecliptic), it appears that Ceres (i.e., the Rings of Saturn) has now moved into position to pass over planet Earth roughly 17-months later on Sunday, November 19, 2017.

**2016 PLANETARY RETROGRADE TIMELINE:**

1. Jupiter Retrograde (January 7, 2016—May 9, 2016)
2. Mars Retrograde (April 17, 2016—June 29, 2016)
4. Pluto Retrograde (April 17, 2016—September 26, 2016)
5. Saturn Retrograde (March 25, 2016—August 13, 2016)

**11. EXODUS TO ISS:**

11.1: International Space Station (i.e., the Death Star)
In the event that Ceres (i.e., the Rings of Saturn) induce a physical and/or spiritual cleansing of Earth, the Greco-Roman Empire which rules over planet Earth will no doubt be destroyed. Consequently, it stands to reason that they would vacate Earth prior to the end of the Maya Calendar in order escape the Apocalyose only to return to Earth at a later date and regain control. As originally depicted in the Truther.org report from August 1, 2015, entitled 'Death Star Appears Over CERN, Switzerland, Home of the CIA', Swiss citizens noticed a bright new star in Switzerland’s western sky starting in March of 2015. Vividly brighter than Venus which flanked it, the apparently man-made Death Star was located approximately 1,000 miles above Earth in Lower Earth Orbit (LEO). Interestingly, the Death Star was temporarily positioned above CERN which is located in Geneva, Switzerland, the de facto capital of the Underworld. Coincidentally, the geometry of CERN mimics that of the Death Star from Star Wars exactly because CERN is the Death Star’s command center which doubles as an advanced nuclear laboratory. Exactly what the Death Star was doing above CERN is not yet known, but it’s highly likely that it was conducting some form of communication-related beta-testing prior to it's departure to Deep Space. Although it's called the 'Death Star', the massive space station is in reality a 'Life Star' for it was built to save the life of the Greco-Roman Empire during the Apocalypse
which will commence at the end of the Maya Calendar on Sunday, November 19, 2017. Whether the International Space Station (ISS) is the operational cover for the Death Star is not yet known, but it's highly likely for 'ISS' (S+S) and 'Suisse' (S+S), the original name of Switzerland, are consonantdepaly speaking the same term. Consequently, 'ISS' may in fact be code word for the Death Star which, like Switzerland (home of the CIA), is responsible for keeping the Greco-Roman Empire safe. Although the Death Star disappeared from the Swiss sky around July 15, 2015, it was likely moved above Greenland or another remote location where it could remain hidden from the prying eyes of the underworld. Lastly, the blood sacrifice of Soundgarden singer Chris Cornell on May 17, 2017, transpired exactly 187-days prior to the Apocalypse on Sunday, November 19, 2017. The number 187 is police code-word for murder. Back on May 4, 1994, Chris Cornell and Soundgarden released a song entitled 'Black Hole Sun' which lamented the arrival of the ‘Black Hole Sun’ otherwise known as Ceres (i.e., the Rings of Saturn) which is coincidentally known as the Black Sun within Meso-American mythology.

11.2: NASA's Death Star Hoax
Because CIA Headquarters beneath Lake Geneva (known locally in Switzerland as the Federal Intelligence Service) is actively spying on author and journalist David Chase Taylor by monitoring his cell phone and computer, they knew he was planning to publish a report on the Death Star located above Switzerland. In order to preempt the report, NASA published a propaganda report on June 11, 2015, stating that the appearence of the Death Star was a naturally occurring cosmic phenomenon. In short, NASA claimed that the Death Star was the conjunction of Jupiter and Venus, a phenomenon which reportedly won’t happen again until 2023. The first problem with NASA's report is that they state that the phenomenon was only relegated to June of 2015. This contradicts scores of eyewitness reports which claim that the Death Star was visible in the Swiss sky starting in March of 2015. Taylor personally witnessed the Death Star in May of 2015 and monitored it almost
daily until it disappeared on or around July 15, 2015. The second problem with NASA's report is that there was never a star as bright as the Death Star in the night sky. In other words, when Jupiter and Venus are located in the sky, their brightness fails in comparison to that of the Death Star as depicted in numerous photos and videos. The third problem with NASA's report is that there is no star as large as the Death Star in the night sky. That is to say that when the largest stars are located in the sky, their size fails in comparison to that of the Death Star as depicted in numerous photos and videos. The fourth problem with NASA's report is that there are no photos or videos corroborating Jupiter and Venus' alleged conjunction. In other words, there is no evidence which depicts the gradual conjunction of the two planetary bodies; they are only seen at the same relative distance to each other as depicted in numerous photos and videos. Lastly, in order to muddy the waters in respect to the appearance of the Death Star, Russia Today published a report on July 1, 2015, entitled 'Thousands Catch Jupiter, Venus Forming Super Bright 'Star of Bethlehem''. The reference to the 'Star of Bethlehem' was designed to attach a Biblical connotation to the appearance of the Death Star, perpetuating the notion that its appearance above Switzerland was a naturally occurring cosmic phenomena.

11.3: Secret Plans for the Death Star

The notion that the Greco-Roman Empire in Greenland was planning to build a space station in a desperate attempt to avoid the Apocalypse on Earth is depicted in a book by Edward Everett Hale entitled 'The Brick Moon' (1869) which was published roughly 148-years ago. In short, The Brick Moon (see PDF) describes the construction of space stations which look eerily similar to that of the Death Star from Star Wars. Although The Brick Moon was allegedly built as a navigational aid, it was 'accidentally' launched into orbit with people on board who lived to tell about it. The link between man-made space stations and Greenland was also made in the The Brick Moon which states that "...we fell to work on plans for making the [space station] large and very light...lest it should fall on the heads of the Greenlanders or the Patagonians; lest they should be injured and the world lose its new moon'. The notion that the future inhabitants of the space station rule over planet Earth is also found within The Brick Moon which states '"...Can it be possible that all human sympathies can thrive, and all human powers be exercised, and all human joys increase...Can it be possible that our passion for large cities, and large parties, and large theaters, and large churches, develops no faith nor hope nor love which would not find aliment and exercise in a little 'world of our own'?". In other words, the Death Star was built to enable the Greco-Roman Empire to continue on with life as they know it during the Apocalypse, albeit in Space. Based on an excerpt in The Brick Moon which states
'Start, then, two moons...Suppose one over the meridian of Greenwich, and the other over that of New Orleans', it can be deduced that two space stations were likely built. Coincidentally, there are two Death Stars in the Star Wars film series. The Space Race, a 20th-century competition between the Soviet Union (USSR) and the United States (US) for alleged spaceflight supremacy, appears to have been political cover for the race to build the two respective space stations (i.e., Death Stars). In all likelihood, America built one Death Star while Russia built the other. That is likely why the Mir and Salyut space stations admittedly make up a considerable part of the International Space Station (ISS), and why the logo of the Salyut Programme and the insignia of the Mir space station depict the outline of the Death Star. Considering the long list of space stations built by various countries over the last few decades, it's highly likely that they were individual parts which collectively make up the two Death Stars today. Lastly, it appears that the Death Stars are solar-powered in nature, a notion based on the work of German physicist Hermann Oberth (1894–1989) who developed plans for a space station orbiting Earth at a height of 8,200 kilometers (5,100 miles). Oberth's space station featured a 100 meter-wide concave mirror called a 'Sun gun' which utilized the Sun's energy, albeit in the form of a weapon. Coincidentally, the Death Star in Star Wars has a concave design and the latest Star Wars film entitled 'Star Wars: The Force Awakens' (2015) features a new Death Star-like planet entitled Starkiller Base which utilizes energy from the Sun. Shocking coincidences to say the very least.

11.4: Departure of the Death Star
Based on breaking news and events, it appears that the Greco-Roman Empire in Greenland vacated Planet Earth for the International Space Station (i.e., the Death Star) on May 13, 2016, exactly 555-days prior to the start of the Apocalypse on Sunday, November 19, 2017. The notion that the Greco-Romans left Earth was confirmed, albeit in a de facto manner, on April 20, 2016, when Yahoo published a report entitled 'Sun God Apollo Presides Over Final Flame Rehearsal'. The timing of the report suggests that the Eternal Flame of Rome previously located in Greenland was transferred to the Death Star just prior to its departure. As originally depicted in the 20 Minutes report from May 9, 2016, entitled 'Mysteriöser Regen-Kreis verblüfft Meteorologen', a weather satellite in Switzerland identified a ring-shaped formation of rain clouds above CERN (see above photo), despite the fact that there was no clouds in the sky. Although only conjecture, it appears that the Death Star made its final visit to CERN before its scheduled departure from Earth on May 15, 2016. The notion that a select number of people will be spared from
the impending Apocalypse on Earth is known in Christian eschatology as the Rapture which states that 144,000 people will be suddenly taken off Earth in order to escape the Great Tribulation at the End of Days. The number 144,000 was evidently derived from the term Baktun in the Maya Calendar which equates to 144,000-days or 394-years. The Maya Calendar (i.e., the 'Calendar of May') was given its respective name because it ends (at least for the Greco-Romans) in the month of 'May' (M+Y), a term which is consonantly speaking the same as 'Maya' (M+Y). The notion that May is the End of Days for the Greco-Roman Empire was foreshadowed back in 2011 when American Christian radio host Harold Camping claimed that the Rapture and Judgment Day would take place on May 21, 2011. Although the prediction was a hoax, the month of May has since become synonymous with the End of the Maya Calendar. Lastly, the notion that the Roman Empire will abandon Earth for the safety of Space was foreshadowed in the song by Europe entitled 'Final Countdown' (1986) which states '...We're leaving together...But still it's farewell...And maybe we'll come back...To Earth, who can tell?...I guess there is no one to blame...We're leaving ground...Will things ever be the same again?...It's the final countdown' (see video).

11.5: Hiding Behind the Sun
When the Maya Calendar finally ends on November 19, 2017, Eathlings will be subjected to whatever the Apocalypse has in store for them. Meanwhile, the elite of the Greco-Roman Empire will be hiding out on the International Space Station (i.e., the Death Star), most likely on the other side of our Solar System where they are desperately hoping to avoid the wrath of Saturn. Although only conjecture, it appears that Death Star hitched a ride on the back of Jupiter, Mars, Mercury, Neptune, Uranus or Venus, one of which will likely be positioned on the other side of the Sun on November 19, 2017. The book series
entitled 'The Hitchhiker’s Guide to the Galaxy' is an apparent tribute to the plan of the Greco-Roman Empire who hopes that hiding behind a plant on the other side of the Sun will somehow save them from the effects of the Black Hole known as Saturn. Considering the Greco-Roman Empire's obsession with numerology, the Death Star will likely be the 3rd so-called planet from the Sun, the same position as Earth (i.e., Third Rock from the Sun). The creation of the Death Star (i.e., the G-Star or Greek Star) is evidently why Pluto was demoted as a planetary body in 2012 in order to make way for the newly commissioned Greek Star whose name has been popularized via the brand G-Star Raw which was established in 1989. The Greco-Roman god of Ra is coincidentally the Sun god and the G-Star (i.e., the Death Star) evidently plans to hide behind the Sun which coincidentally powers it. The plan to hide the Death Star behind the Sun gives new credence to the terms 'Suncreeen' and 'Sunblock' which were popularized during the 1980's due to the epidemic of skin cancer which these very products cause due to them containing aluminum.

11.6: Return of the Death Star
Because the Greco-Roman Empire in Greenland evidently vacated Earth for the safety of the International Space Station (i.e., the Death Star) on May 13, 2016 (hence the name of the Maya Calendar), they will return to Earth at a later date, possibly on September 28, 2018. This is evidently why the Death Star was first introduced in the film entitled 'Star Wars: Episode VI – Return of the Jedi' for the plan is to return to Greenland whose official name is 'GOD' (G/J+D) or 'Greenland of Denmark' which is consonantly speaking the same as 'Jedi' (G/J+D). The Death Star's roughly 28-month journey around the Sun is likely where the title of the Apocalyptic thriller entitled '28 Days Later' (2002) was originally derived from. In short, the film's plot depicts a biological pandemic that wipes out humanity which was slated to transpire while the Death Star was was hiding out in deep Space. The
The lyrics to Green Day song entitled 'Wake Me Up When September Ends' (2005) is an apparent musical tribute to the return of the Death Star to Earth on September 28, 2018, which equates to October 28th in the Solar Calendar. The song's ominous lyrics state, 'Here comes the rain again…Falling from the stars…As my memory rests…But never forgets what I lost…Wake me up when September ends'. Translation: a) the Death Star will return to Earth when September ends, possibly on September 28, 2018, b) although the Greco-Romans are distraught about losing their empire, they have rested their memories of the past, and c) the Greco-Roman Empire plans to start a new 'reign' of Earth from their Death Star (i.e., International Space Station), likely via 'falling' space ships or space probes. Lastly, because the letter 'N' equates to the 'X' symbol in the Roman Score (i.e., the original alphabet), the term 'Green Day' equates to 'Greex Day' or 'Greeks Day'. Although only conjecture, it's highly likely that October 28th in the Solar Calendar has holiday status with the Greco-Romans, possibly entitled 'Green Day'. Because the pre-fix 'Octo' equates to the number '8' which symbolically equates to 'infinity', and 'B' and 'R' are acronyms for 'Babylon' and 'Rome', the term 'October' (C/K+T+B+R) equates to 'Forever Babylon Rome'. The number '28' found in: a) the return date of September 28th within the Gregorian Calendar, b) the return date of October 28th within the Solar Calendar, and c) the return year of 2018 equates to 'to infinity' (i.e., the number '2' equates to 'to' and while the number '8', which is a symbolic tribute to the Anelemma, is representative of 'infinity'). This is likely where Buzz Lightyear's famous catchphrase from 'Toy Story' (1995) 'To Infinity and Beyond!' was likely derived from.

12. EMERGENCE OF THE FIFTH WORLD:

12.1: The Black Sun & Fifth World
The End of the Maya Calendar on Sunday, November 19, 2017, will evidently trigger a sequence of events which begat the Fifth World as depicted in the Popol Vuh, the Mayan glyphs and hieroglyphs containing the Maya Creation Myth. The central theme of the myth holds that there were four other cycles of creation and destruction that preceded the Fifth World. According to Aztec mythology, the present World is a product of four cycles of birth,
death, and reincarnation. When each World is destroyed it is reborn through the sacrifice
of a god which creates a new Sun and a New World. In short, after the fourth Sun is
destroyed, the gods will gather to choose a god who will become the new Sun.
Interestingly, the myth states that the Sun will remain motionless in the sky, burning the
ground below. However, after a sacrifice, the Sun will begin to move through the sky,
energizing the Earth instead of burning it. This appears to be a veiled reference to arrival
of Ceres (i.e., the Rings of Saturn) which will likely trigger cataclysmic events on Earth due
do its electrically infused power as a result of Syzygy (i.e., when two planets are 'yoked
together'). The Hopi believe we are currently living in the Fourth World, but are on the
threshold of the Fifth. In each of the previous worlds, humanity was destroyed by
destructive practices and wars, evils which will not be inherent to the Fifth World. The Fifth
World is also referred to as the 'Legend of Five Suns' which states that the Black
Tezcatlipoca was chosen as the new Sun but only managed to become half a Sun or a
less than spectacular moon, another apparent reference to Ceres (i.e., the Rings of
Saturn) (i.e., the Black Sun). The arrival of a mysterious black planet is also found
within Mesoamerican mythology as the Black Sun which has many mystical
meanings. The Aztecs associated the passage of the Black Sun with the image of a
butterfly, an archetypal symbol of the transcendent soul, transformation and mystical
rebirth. This is likely because the arrival of Ceres (i.e., the Black Sun) will bring about the
emergence of the Fifth World. The frightening Earth goddess Itzpapalotl, who is known as
the 'Obsidian Butterfly', devours the people during the Solar Eclipses which she herself
causes. This appears to be a reference to the 'cleansing' effect that Ceres (i.e., the Rings
of Saturn) will have upon the Earth. Consequently, the Black Sun became a symbol of
esoteric and occult significance during the Nazi era in Germany. Lastly, black dwarfs are
referred to as Black Suns and Ceres just happens to be a black dwarf planet. A
coincidence? Not a chance.

13. HARMONIC CONVERGENCE:
13.1: Harmonic Convergence

It is imperative to note that the fulfilment of the Three Days of Darkness prophecy and the 42-day re-creation period of Earth known as the Apocalypse should not be viewed as the 'End of the World' but rather as the 'End of the World' as we know it. Due to the unprecedented rise in global consciousness, a new age of Peace and Love will follow the Apocalypse. As originally depicted in the Truther.org report from January 25, 2016, entitled 'Planetary Alignment, Harmonic Convergence, World Peace and the Coming Age of Aquarius', evidence now suggests that Earth is about to experience a rare celestial event known as Harmonic Convergence. Although this phenomenon allegedly occurred back on August 16-17, 1987, its inherent side-effect of World Peace never transpired in reality. Consequently, it now appears that the year of 2017 is when the esoteric prophecy known as Harmonic Convergence will finally commence, bringing about the long-awaited Age of Aquarius (i.e., the Messianic Age). Harmonic Convergence will reportedly correspond with a 'great shift in the Earth's energy from warlike to peaceful' and usher in a period of Earth's 'cleansing' whereby many of the planet's 'false structures of separation' (e.g., banking, government, religion, etc.) will simultaneously collapse, forever. The notion that 'false structures of separation' are about to collapse is corroborated by the fact that CIA Headquarters beneath Lake Geneva in Switzerland has now been exposed for the first time in history. Consequently, Harmonic Convergence or not, the CIA which controls these false structures is ultimately doomed. Harmonic Convergence will also bring about the so-called 'End of History' and the beginning of a new 3,600-year cycle (i.e., the Fifth World) as prophesized by the Mayans. Evils of the modern World (e.g., assassinations, capitalism, fascism, materialism, poverty, slavery, terrorism, torture, war, etc.) will finally cease with the birth of the Fifth World. In astronomy, Planetary Alignment is known as Syzygy, meaning 'yoked together'. Considering that a Sun–Earth–Moon-based syzygy can allegedly trigger moonquakes, the arrival of Ceres (i.e., the Rings of Saturn) will no doubt have a major physical and/or spiritual effect on Earth. In 'The Avatar' series, Harmonic Convergence is known as a 'supernatural phenomenon that occurs once every ten thousand years'. When the planets align, spiritual energy is greatly amplified, causing the spirit portals at the North and South Poles to merge, while an aura of spirit energy envelops the Earth. Although the claims made in the 'The Avatar' series are fictional and thereby fraudulent in nature, so too was the timing of the song 'The Age of Aquarius' (47-years too early), the purported Harmonic Convergence date of August 16-17, 1987 (28-years too early), and the Maya Calendar end-date of December 21, 2012 (4-years too early). Consequently, it can be deduced that there has been a premeditative effort to deceive humanity in respect to the true date of Harmonic Convergence which is intimately tied to the Apocalypse. That is to say that if the Age of Aquarius is really upon us, we will only know it via celestial-based events (e.g., Blood Moons, Blood Suns, Lunar Eclipses, Planetary Alignment, Planetary Retrograde, Solar Eclipses, etc.), not via reports from the European Space Agency or NASA. Astrologers believe that Planetary Alignment affects all of mankind, namely by 'influencing the rise and fall of civilizations or cultural tendencies'. Consequently, the Greco-Roman Empire in Greenland has good reason to hide the true date of Harmonic Convergence from humanity for its very survival depends on it. According to astrologer Vera Reid, the Age of Aquarius is a time when mankind finally takes control of Earth and its own destiny. This will entail a revolution of enlightenment and truth, as well as the expansion of consciousness. As such, mankind will become the 'Son of God' (i.e., the Messiah), saving himself. Lastly, Harmonic Convergence was foreshadowed in the song entitled 'The Age of Aquarius' (1969) which states that, 'When the Moon is in the 7th house...And Jupiter aligns with Mars...Then Peace will guide the planets...And Love will steer the stars...No more falsehoods or derisions'. If ever life needed to imitate art, now is the time.
14. MESSIANIC AGE TO COME:

14.1: The Messianic Age

After the Messiah destroys the Roman Empire and its Anti-Christ which has now been identified as Barack Hussein Obama II, the World will finally enter the Messianic Age (i.e., the World to Come), otherwise known as the Age of Aquarius. In short, the Messianic Age is an era of global Peace that is free of strife and conducive to the knowledge of the Creator. All religions will subsequently cease and the World will collectively worship the one and only Creator. The Messiah will also inspire all human beings to be one family and create a civilization that is based on sharing and cooperation. The Holy Bible describes this global shift of consciousness in Isaiah 2:4 which states that '…they shall beat their swords into plowshares, and their spears into pruninghooks: nation shall not lift up sword against nation, neither shall they learn war any more'. The coming age of Peace is also prophesized within Zoroastrianism which states that '…there will come a time when humanity will become like the Amesha Spentas, living without food, without hunger or thirst, and without weapons (or possibility of bodily injury). The material substance of the bodies will be so light as to cast no shadow. All humanity will speak a single language and belong to a single nation without borders. All will share a single purpose and goal, joining with the divine for a perpetual exaltation of God’s glory'. The Jewish philosopher Maimonides (1135-1204) described the Messianic Age in the Mishneh Torah (Laws of Kings 12:5), stating that, '…there will be no hunger or war, no jealousy or rivalry. For the good will be plentiful, and all delicacies available as dust. The entire occupation of the world will be only to know God… the people Israel will be of great wisdom; they will perceive the esoteric truths and comprehend their Creator’s wisdom as is the capacity of man. As it is written [in Isaiah 11:9]: ‘For the Earth shall be filled with the knowledge of God, as the waters cover the sea’. The Jewish Kabbalah also states that the Messiah (i.e., Messiah ben David) will usher in a period of freedom and Peace. According to Theosophical literature, the Maitreya (i.e., the Messiah) will make the basic needs of humans (e.g., food, clothing, education, housing, medical care, etc.) a universal right. Under the Maitreya’s inspiration, humanity itself will make the required changes to create a sensible and more just World for all living beings. The head of the Bahá’í Faith, Shoghi
Effendi, described the Messianic Age as 'The Most Great Peace...a Peace that must inevitably follow as the practical consequence of the spiritualization of the world and the fusion of all its races, creeds, classes and nations...'. Lastly, in Hinduism, the Messiah is depicted as a new incarnation of the avatar (i.e., the Kalki Avatar) who will fight the apocalyptic snake and achieve the final victory over Evil on Earth. He will renew humanity and enable people to lead pure and honorable lives.

About the Author

David Chase Taylor is an American journalist and the editor-in-chief of Truther.org, a state-sponsored terror whistle-blower website. Taylor currently lives in Switzerland where he applied for political asylum on July 17, 2015. Taylor authored The Nuclear Bible, a book credited with foiling a nuclear terror attack upon Super Bowl XLV in Dallas, Texas on February 6, 2011, and Greenland Theory: Apocalypse Now, a book and website exposing the true power structure of the world, especially in respect to Greenland and its primary proxy state of Switzerland which is coincidentally home to the CIA. Taylor has also published The Bio-Terror Bible, a book and website exposing the global bio-terror pandemic planned for 2015. To date, Taylor has blown the whistle on over 100 state-sponsored terror plots, including the 2012 Democratic National Convention Terror Plot, the 2011 Super Bowl Nuclear Terror Plot, the 2014 Super Bowl Nuclear Terror Plot, the Terrorgate Scandal, the 2014 Memorial Day Massacre, the man-made asteroid attack planned for 2015, and the drone strike which killed 'Fast and Furious' star Paul Walker. Taylor was also the first to expose Alex Jones' treacherous links to STRATFOR and is noted for the 10 reasons why the Rosetta Comet landing was a hoax.

Truther.org Legal Disclaimer

Truther.org's stated purpose is to stop terrorism by drawing unwanted global attention to terror plots prior to their fruition. Terror alerts and warnings made by Truther.org DO NOT necessarily imply that these terror events will transpire in reality but rather that there is a distinct possibility that they may occur based on breaking terror-related news, events and data. Historically speaking, once a major false-flag terror plot is exposed, it is immediately canceled, postponed, or reworked (e.g., the 2011 Super Bowl Nuclear Terror Plot, the 2014 Super Bowl Nuclear Terror Plot, the 2014 Freedom Tower Nuclear Terror Plot, etc.). State-sponsored acts of terror must have a prior paper trail in order to set-up patsies, prime scapegoats, create plausible deniability, and mislead the public from the usual suspects of terror which work at the behest of the CIA in Switzerland. Please support real citizen journalism and help make terrorism a thing of the past. Blessed are the Peacemakers. Namaste
